KA4 - Dissemination and Exploitation of results

Key Activity 4 helps to create an effective exploitation of results at local, sectoral, regional, national and European levels, in synergy with communication activities.

EACEA - Lifelong Learning Programme

What is the difference between Accompanying Measures and KA4?

*KA4 is a **transversal action**: integrated approach across two or more LLP sectors and previous related programmes and it deals with project that have a broader impact than just a simple conference or publication*

*Accompanying measures are within **sectoral** programmes (Erasmus, Comenius, Leonardo da Vinci, Grundtvig) are specific to these programmes and they are of smaller scale and foresee punctual actions of dissemination*

19

Priorities for Multilateral Projects

1. Activities to research and identify barriers to dissemination and exploitation and develop robust models for successful D&E of results;

2. Activities to assess the impact of results of D&E actions;

3. Transfer and implement results (multiplication) and/or mainstream them into policies;
