| Action                                   | COMENIUS Preparatory Visits   |  |
| Objectives and description of the action | The objective of the action is to help any institution eligible for the Comenius Programme wishing to establish a Comenius School Partnership, Comenius Regio Partnership, Comenius Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project to get to know suitable partner institutions and develop a work plan in order to prepare the project/partnership application form.   |  |
|  | Any institution wishing to establish a new Partnership, Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measure may apply for a grant to enable staff members to undertake a preparatory visit. The visit may take either of the following forms:  - a visit to an eligible partner institution in another country participating in the Lifelong Learning Programme;  - participation in a partner-finding 'contact seminar' organised by a National Agency.  |  |
|  | Details of the seminars are available on request from National Agencies.  |  |
|  | Preparatory visits allow potential partners to meet in order to:  - define the aims, objectives and methodology of a future Partnership, Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project;  - define partner roles, responsibilities and tasks within a future Partnership, Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project;  - develop a work plan for a future Partnership, Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project, including methods for monitoring, evaluation and dissemination;  - complete the joint Partnership, Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project application form |  |

Usually a grant is awarded to just one person per visit, but in exceptional cases two staff from the same institution can be awarded a grant to undertake a visit together. Only one visit per Partnership, Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project will be funded. Applications for preparatory visits are not eligible once the corresponding project/partnership application has been submitted.  |  |
| Who can apply                            | Institutions whishing to establish a Comenius School (multilateral or bilateral) Partnership, Comenius Regio Partnership, Comenius Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures project.  |  |

# **Eligibility Criteria**

General eligibility rules:
The general eligibility criteria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3.
Participating countries: please refer to Part I of this Guide, section "Which countries participate in the Programme?"

| Specific eligibility rules:    | Applications must be submitted by bodies which are legal entities and eligible to apply for a Comenius Partnership, Comenius Individual Pupil Mobility, Multilateral Project, Multilateral Network or Accompanying measures.  As preparatory visit grants (contact seminars included) aim at supporting organisations to develop future projects/partnerships, the country of origin and the country of destination must be countries participating in the LLP although not necessarily Member States of the EU. Nevertheless, applicants/beneficiaries of a preparatory visit grant should pay attention to the following requirement: at least one partner organisation of the future partnership/project application – that will be prepared as a result of the preparatory visit grant – has to be located in an EU Member State for the grant application relating to the partnership/project to be formally eligible. |                |  |
|--------------------------------|---|----------------|--|
|                                | Institutions located in Cyprus, Germany, Ireland and the UK are not eligible for a Preparatory Visit grant for the preparation of a Comenius Individual Pupil Mobility grant application, as these countries are not participating in the Comenius Individual Pupil Mobility action.  Please verify with the National Agency to which you will apply if any additional national   |                |  |

| Subprogramme   | COMENIUS   |  |  |
| Action Category  | MOBILITY   |  |  |
| Action   | COMENIUS Assistantships (assistants)   |  |  |
| Objectives and description of the action   | The objective of this action is to give future teachers the opportunity to gain a better understanding of the European dimension to teaching and learning, to enhance their knowledge of foreign languages, other European countries and their education systems and to improve their teaching skills.   |  |  |
|  | Assistants receive grants to enable them to undertake an assistantship in a host school of another country participating in the Lifelong Learning Programme. The host school designates a fully qualified and experienced teacher to act as a supervisor for the assistant. The tasks to which an assistant may contribute include:  • assisting in classroom teaching, supporting pupils' group work and project-based teaching  • improving the pupil's comprehension and expression in foreign languages, teaching the assistant's mother tongue  • providing support for pupils with special educational needs  • providing information on the assistant's country of origin  • introducing or reinforcing the European dimension in the host institution  • developing and implementing projects, e.g. eTwinning, Comenius School Partnerships or Comenius Regio Partnerships |  |  |
|  | Assistants should be fully integrated into school life. They are not to act as full-time teachers but should assist in teaching and other school activities (max 12 to 16 teaching units/hours of school based activity are recommended). The assistants should follow the advice given in the Good practice guide for host schools and assistants available at Europa website: <a href="http://ec.europa.eu/education/comenius/doc994">http://ec.europa.eu/education/comenius/doc994</a> en.htm  Comenius assistants may be based at more than one school, either to give extra variety to their  |  |  |
|  | work or to meet the particular needs of neighbouring schools. Assistants may not work in more than 3 schools during their assistantship.  Assistants are selected by the National Agencies of their home country or of their country of studies.   |  |  |
| Who can benefit  | Future teachers of any school subject.   |  |  |
| Who can apply PRIORITIES   | Any future teacher who complies with the specific eligibility rules mentioned below.   |  |  |
| PRIORITIES   | Please verify with the relevant National Agency if national priorities apply. There are no European priorities for COMENIUS Assistantships.  |  |  |
| HOW TO APPLY   | Decentralised action. Applications have to be sent to the applicant's National Agency. The application has to be submitted either in the country of residence or in the country of studies of the applicant (the applicant has to sign a declaration that only one application has been submitted).  |  |  |

| Action Category   | MOBILITY   |  |  |
| Action  | COMENIUS Assistantships (host schools)   |  |  |
| Objectives and description of the action  | Schools can apply to host a Comenius assistant, a future teacher of any subject. While the assistantship offers the Comenius assistant the opportunity to gain teaching experience in another European country, the school receives additional support for activities such as:  • assisting in classroom teaching, supporting pupils' group work and project-based teaching  • introducing or reinforcing the European dimension  • implementing CLIL (Content and Language Integrated Learning) by teaching a subject in a foreign language  • improving the pupils' comprehension and expression in foreign languages, enriching the language offer at the school  • developing and implementing projects e. g. eTwinning, Comenius School Partnerships or Comenius Regio Partnerships  • working with pupils with special educational needs  Host schools must designate a teacher to supervise the assistant, look after his or her welfare, monitor progress and act as a contact person during the assistantship. Assistants should be fully integrated into school life. They are not to work as full-time teachers but should assist in teaching and other school activities (max 12 to 16 teaching units/hours of school based activity are recommended). The host school and the assistant must draw up an agreement which specifies the lessons to be taught, the projects to be completed, etc. The host school should follow the advice given in the Good practice guide for the host schools and assistants available at Europa website: <a href="http://ec.europa.eu/education/comenius/doc994">http://ec.europa.eu/education/comenius/doc994</a> en.htm . The host school should report on the assistantship to its National Agency.  Comenius assistants may be based at more than one school, either to give extra variety to their work or to meet the particular needs of neighbouring schools. Assistants may not work in more than 3 schools during their assistantship. |  |  |

| Subprogramme Action Category Action Objectives and description of the action | LIFELONG LEARNING  COMENIUS  MOBILITY  The Comenius Individual Pupil mobility action allows secondary school pupils to spend between 3 and 10 months in a host school and a host family abroad. Pupil mobilities are organised between schools involved in the same Comenius partnership. In the school year 2012-2013, the countries specified in the eligibility rules below will participate in the action.  The aim of the action is to offer European cultures and languages, and to help them acquire competences necessary for their personal development. This action should also be a valuable international pedagogic experience for the teachers involved in the organisation and implementation of the mobility. Furthermore, the action aims to build up sustainable cooperation between the participating schools, to enable them to recognise the studies undertaken at the partner school abroad and to strengthen the European dimension in school education.  Mobility can take place only between schools which are or have been involved in a Comenius School Partnership.  A reciprocal exchange of pupils between schools/host families is encouraged but is not compulsory.  Guide to Comenius Individual Pupil Mobility. All actors involved in the Comenius Individual Pupil Mobility - schools, pupils, their parents and host families - should consult the specific Guide to Comenius Individual Pupil Mobility which aims to help them in implementing the action and responsibilities, deadlines to be respected, gives guidance and provides the necessary templates and forms for participants. The Guide is available in English at the Europa website and in translation at the website of the relevant Comenius National Agency.  Nomination of a contact teacher and a mentor. The sending school must nominate a contact teacher and the host school must nominate a mentor responsible for the preparation and follow-up of the mobility. Participating schools should give suitable recognition to the work of these staff members for their involvement in Comenius Individual Pupil M |  |  |

| Award criteria               | 1. Quality of the mobility programme  |  |
|                              | The objectives of the mobility are clear and realistic. The involvement of the sending and the host   |  |
|                              | school/s is well explained and appropriate to achieve the set objectives. There is evidence of  |  |
|                              | existing cooperation between the sending school and the host school/s. Appropriate measures are   |  |
|                              | proposed to ensure effective cooperation and communication between the sending and the host   |  |
|                              | school. The application sets out clear and relevant criteria and a realistic procedure how the pupils   |  |
|                              | will be selected and how the host families will be identified and selected. The measures taken by   |  |
|                              | the sending school to recognise the studies completed abroad are clear and appropriate. The   |  |
|                              | implication of all actors (sending school, host school and pupil) in the establishment of the   |  |
|                              | learning agreement is clear and well defined. The content of the planned mobilities is linked to the  |  |
|                              | existing cooperation between the schools.   |  |
|                              | 2. Support of participants and protection of pupils   |  |
|                              | Appropriate measures are proposed by both schools to ensure the necessary support to  |  |
|                              | participating pupils, host families and staff involved. The application makes clear how schools will  |  |

| Action                                   | COMENIUS In-Service Training for Teachers and other Educational Staff (IST)  |  |  |
| Objectives and description of the action | The objective of this Action is to help improve the quality of school education by enabling staff to undertake training in a country other than that in which they normally work or live. In this way, participants are encouraged to improve their practical teaching/coaching/counselling/management skills and knowledge, and to gain a broader understanding of school education in Europe. The training activity must have a strong European focus in terms of subject matter and the profile of trainers and participants.   |  |  |
|  | The training must in all cases take place in another country participating in the Lifelong Learning Programme and it must take the form of:  • a structured professional development course for school education staff with a strong European focus in terms of subject matter and profile of trainers and participants, lasting at least 5 working days, or  • a placement or observation period (e.g. "job shadowing") in a school, in industry or in a relevant organisation involved in school education (e.g. NGO, public authority), or  • participation in a European conference or a seminar organised by an ongoing or former Comenius Multilateral Network, Comenius Multilateral Project, an Accompanying Measures project, a National Agency or a representative European association active in the field of school education (excluding "Comenius Contact Seminars")  where this is considered conducive to achieving the objectives mentioned above. |  |  |
|  | The training for which grants are awarded must relate to the candidate's professional activities in any aspect of school education, for example:  - Practical teaching skills, techniques and methodologies  - The content and delivery of school education  - The management of school education  - The system/policy level of school education   |  |  |
|  | The training should provide teachers with learning and teaching methodologies. For foreign language teachers, the training normally takes place in a country where the target language is spoken and taught. Participants in "pure language" courses (courses aimed exclusively at developing competence on a foreign language) are eligible for a Comenius grant only in the cases specified in the section 'Specific eligibility rules' below.   |  |  |
|  | Job-shadowing should enable the applicant to improve his or her professional competences through a period of observation of, and interaction with, other professionals at work in a different country and to experience another culture and another workplace at first-hand. Job-shadowers normally follow the host professionals throughout their working day, undertaking structured observations of, and reflections on the content of the job, the challenges faced, the competences used, the school/company culture, etc. Job shadowing can also involve interviews, carrying out professional activities (e.g. teaching), participation in daily meetings, etc. A programme of job-shadowing is to be agreed mutually by the applicant and the host institution, based upon the professional competences that the applicant needs to practice and develop.  |  |  |
|  | Grants are only awarded for participation in training which is suitable for achieving the applicant's demonstrated in-service training objectives and which complies with the necessary quality criteria (e.g. appropriate to general Comenius objectives, European dimension and added value compared to training in the applicant's home country).   |  |  |
|  | An on-line database of training activities, known as the Comenius-Grundtvig Training Database, is available to help applicants identify training which is eligible for funding under this action and which best meets their training needs: <a href="http://ec.europa.eu/education/trainingdatabase/">http://ec.europa.eu/education/trainingdatabase/</a>  |  |  |
|  | However, applicants may also choose a training course which is not listed in the database, provided that it meets the necessary criteria. This will be determined by the relevant National Agency. Choosing a training event from the database does not guarantee being awarded an IST grant.  |  |  |
| Who can benefit                          | School education staff (teaching and non-teaching), also unemployed teachers and teachers re-<br>entering the profession after a period away from teaching.<br>Persons engaged in the training of teachers.  |  |  |
| Who can apply                            | Individuals, normally through their home institution (please note the specific types of schools described in the introductory part of the Comenius chapter of Part II of this guide), but where no such home institution exists (in the case of former or unemployed teachers), the application may be submitted directly to the relevant National Agency.   |  |  |
| PRIORITIES                               | Please verify with the relevant National Agency if national priorities apply.  European priority points will be awarded to applications for attending training events resulting from previous Socrates projects or LLP Multilateral projects or Networks.  |  |  |
| HOW TO APPLY                             | Decentralised action. Applications have to be sent to the applicant's National Agency. In case the applicant works in a country other than that in which he/she is resident, the application must be sent to the National Agency in the country in which the applicant works.  |  |  |

| Objectives and description of the action | Multilateral Comenius School Partnerships aim at enhancing the European dimension of education by promoting joint co-operation activities between schools in Europe. The projects give pupils and teachers in different countries an opportunity to work together on one or more topics of mutual interest. School partnerships help pupils and teachers to acquire and improve skills not only in the topic or subject area on which the project is focussed, but also in terms of teamwork, social relations, planning and undertaking project activities and using information and communication technologies (ICT). Participating in a partnership with schools from different countries also gives pupils and teachers the opportunity to practice foreign languages and increases their motivation towards language learning. A Multilateral School Partnership must include schools from at least 3 participating countries. One of the schools must act as coordinator. It is strongly advised to indicate at application stage which of the partners volunteers to act as replacement coordinators, should the original coordinator be rejected in the selection procedure.  Examples of activities that can be carried out in Multilateral Comenius School Partnerships:  • Project meetings between all institutions involved in the partnership  • Exchanges of staff and pupils involved in project activities (e.g. teacher exchanges, study visits, pupil exchanges)  • Exchanges of staff and pupils involved in project activities (e.g. teacher exchanges, study visits, pupil exchanges)  • Exchanges of experience and good practice with partner schools abroad  • Fieldwork, project research  • Drafting, publishing and disseminating documentation related to the co-operation activities  • Producing technical objects, drawings, arts objects  • Performances (e.g. theater plays, musicals)  • Organisation of exhibitions, production and dissemination of information material  • Linguistic preparation of teachers and pupils to ensure they possess the necessary competence in the working |

### Comment on **Funding:**

Funding for Multilateral School Partnerships is based on pre-defined lumpsum amounts that depend on the number of mobility activities planned by the applicant institutions. By mobility we mean travel abroad by staff and pupils to participate in partnership activities in the partner countries. Each institution involved in the same partnership can apply for a different grant amount, depending on its own possibilities for sending out pupils and staff and on its degree of involvement in the partnership activities. If an institution's mobility activities involve staff or pupils with special needs, or travel to or from the Overseas Countries and Territories, its mobility activities during the partnership period may be reduced by up to 50% of the minimum mobility number for the grant amount in question, upon prior request to and approval by the NA. Please consult the Chapter of Part One of this Guide on Financial Provisions for Partnerships.

#### **EVALUATION AND SELECTION PROCEDURES**

Please consult Part I of this Guide, chapter WHAT IS THE LIFECYCLE OF A PROJECT for further information about the evaluation and selection procedures

#### **Eligibility Criteria**

## General eligibility rules:

The general eligibility criteria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3. Participating countries: please refer to Part I of this Guide, section "Which countries participate in the Programme?"

### Specific eligibility rules:

Schools participating in Partnerships must be legal entities.

- Schools participating in the Comenius Programme must be located in a country participating in the LLP and belong to one of the types of institution specified by the relevant National authorities in their list of eligible school types. (http://ec.europa.eu/education/programmes/llp/comenius/school\_en.html)
- Multilateral School Partnerships must consist of a minimum of 3 participants each located in a different country participating in the LLP, at least one of which must be an EU Member State.

Please verify with the National Agency to which you will apply if any additional national requirements exist.

Please note also the specific cases below:

- 1) Schools under the supervision of national authorities of another country (e.g. lycée français, German schools, UK "Forces" schools)
  - The national authorities responsible for supervising the administrative, financial and curricular regime of the school concerned decide which establishments are eligible to participate:
- The participation of the "national schools" located in a different country will be supported by the Comenius budget of the supervising country (= "country of origin").
- These national schools can participate in any type of Comenius activity and the same rules shall apply to them as to any other eligible school from the supervising country.
- Given the specific situation of these schools, it is important to ensure an appropriate mix of countries, cultures and languages in their Comenius Partnerships.
- Therefore, in case of such a school participating in a multilateral Partnership: there must be further partners from at least two participating countries other than the supervising country and the host country of the school.
- 2) Specialised schools

The decision on the participation in Comenius of other "national schools", such as minority schools, private schools for expatriates etc. is the remit of the national authorities of the country in which the institution is located.

In the case of a Comenius Multilateral Partnership, the normal rules apply, i.e. there should be further participation of schools from at least two other countries apart from the country in which the specialised school is located.

3) European Schools

European schools are eligible institutions for participation in Comenius. They shall apply to the NA of the country in which they are located and shall be subject to the same selection procedure as local schools. In the case of Belgium, the three NAs will agree on appropriate arrangements. European schools are subject to the same Comenius rules as any other eligible school in the country in which they are located. However, the participation of European schools - either as a coordinator or as a partner - will be limited to one European school in each Partnership.

### Comment on participants: **Award criteria**

# 1. Quality of the work programme

The objectives of the partnership are clear, realistic and address a relevant subject. The work programme is appropriate for achieving the objectives and suitable for the partnership type in question; the tasks are defined and distributed among the partners in such a way that the results can be achieved. Activities of partners are distributed throughout the whole duration of the partnership.

2. Quality of the partnership

There is an appropriate balance between partners in terms of their involvement in the activities to be carried out. Appropriate measures have been planned to ensure effective communication and cooperation. The relevant staff and pupils will be involved in the planning, implementation and evaluation of project activities. The project will be integrated into the curriculum and ongoing activities of the institutions involved.

# 3. Impact and European added value

The impact and benefits of European cooperation on the participating institutions are clear and well defined and the project is integrated into the activities of the participating institutions. The application shows that the participating schools will work in close cooperation and achieve results which would not be attained at a purely national level.

# 4. Dissemination and exploitation of results

The activities planned for dissemination and exploitation of results are relevant and well defined. They cover the participating organisations and, if possible, the wider community.

| description of the action                       | countries and seek to encourage the use of European languages by giving pupils the possibility to practice their foreign language skills and acquaint themselves with the language of a partner country. Pupils involved in a bilateral partnership are expected to learn at least the basics of the language used in the partner institution. Usually pupils use a third language as their working and communication language. During the project, pupils and teachers in both countries work together on a common theme and produce a joint end product. Each participating institution must carry out a class exchange to its partner institution of a duration of minimum 10 days each and involving pupils aged 12 or older. During the class exchanges, pupils work together at school and are hosted in each others' families. The cooperation should not only be limited to the exchanges but activities should cover the whole project period. |
|   | The general aim of Comenius school partnerships is to enhance the European dimension of education by promoting joint co-operation activities between schools in Europe. The projects give pupils and teachers in different countries an opportunity to work together on one or more topics of mutual interest. School partnerships help pupils and teachers to acquire and improve skills not only in the topic or subject area on which the project is focused, but also in terms of teamwork, social relations, planning and undertaking project activities and using information and communication technologies (ICT). Participating in a partnership with schools from different countries also gives pupils and teachers the opportunity to practice foreign languages and increases their motivation towards language learning.   |
|   | A reciprocal class exchange is mandatory in this project type.  |

|   | When choosing the theme of a School partnership, schools are strongly encouraged to choose any topic of interest and importance to the participating institutions, as it will be the motivating force for co-operation and learning within the project. Project activities should ideally be integrated into the regular activities of the schools and be included in the curriculum of participating pupils. Pupils should be able to be involved in all phases of the project, including the planning, organisation and evaluation of activities. If the language of the partner school is not on the curriculum of participating pupils, the school must organise language preparation of minimum 20 hours.  |

| Objectives and description of the action | Comenius Regio Partnerships aim at enhancing the European dimension of education by promoting co-operation activities between local and regional authorities with a role in school education in Europe. The partnerships give educational authorities, in cooperation with schools and other actors in education, in different regions, the opportunity to work together on one or more topics of mutual interest.  |
|  | Comenius Regio Partnerships help the participating regions to develop and exchange best practice in school education, to develop tools for sustainable cooperation across borders, and to strengthen the European dimension in school education.  |
|  | Comenius Regio Partnerships consist of 2 "partner regions". Each partner region must involve:  - the local or regional authority with a role in school education  - at least one school  - at least one other relevant local partner (e.g. youth or sport clubs, parents and pupils   |
|  | associations, local teacher training institutes, other learning providers, VET institutions and local employers, museums and consulting services/ advisory boards).   |
|  | Only local or regional authorities with a role in school education are eligible to apply for funding and must coordinate the project within their region.  Comenius Regio Partnerships must include partner regions from two countries participating in the Lifelong Learning Programme; one of the participating regions must be from a EU Member State.   |
|  | Comenius Regio Partnerships should focus their work on clearly defined themes. These might concern the organisation of school education, cooperation between schools and other local partners (e.g. providers of formal or non-formal learning), or common problems in school education (e.g. inclusive education, violence at schools, racism and xenophobia). They should lead to a concrete result of their cooperation (e.g. publications, events such as a conference or seminar).   |
|  | Comenius Regio Partnerships should help regions to improve their educational offer for young people. The main purpose of Comenius Regio is not to involve pupils or students directly but to focus on school development and the structured cooperation among the partner regions. Pupils and students normally benefit from Comenius Regio Partnerships indirectly rather than as main participants.   |
|  | <ul> <li>Examples of activities that can be carried out in Comenius Regio partnerships:         <ul> <li>Project meetings between all institutions involved in the partnership</li> <li>Exchanges of staff involved in school education (e.g. teacher exchanges, study visits of staff working in the local/ regional school administration)</li> <li>Action research, small studies</li> <li>Job shadowing</li> </ul> </li> </ul>  |
|  | <ul> <li>Exchanges of experience and good practice with partner regions / municipalities abroad</li> <li>Peer learning activities and common training sessions</li> <li>Conferences, seminars and workshops</li> <li>Awareness raising, campaigns</li> <li>Drafting, publishing and disseminating documentation related to the co-operation activities</li> <li>Linguistic preparation of staff participating in the partnership</li> <li>Co-operation with other projects in related subject areas (including Comenius Multilateral Projects and Comenius Multilateral Networks), including mobility to network events if</li> </ul> |
|  | relevant, sharing experience with other institutions in the region  Joint self-evaluation activities  Dissemination of project experiences and outcomes   |
|  | Already at application stage, applicants should consider in concrete terms how to ensure the sustainability of the outcomes. This could be the support of future bi- or multilateral school partnerships, the establishment of regular teacher exchanges or study visits, as well as the implementation of new methods and practices.   |
|  | Comenius Regio Partnerships should disseminate their results within their partner organisations and support other regions or institutions to profit from their experiences. At application stage they are asked to provide a dissemination plan as well as ideas how results could be used by themselves and others.  |
|  | Comenius Regio Partnerships can be combined with already existing activities in Town Twinning or other European educational programmes, but should clearly create additional cooperation activities as well as a deepening of already existing cooperation in the field of school education and show that there is no overlap between activities funded from the EU budget.   |
| Who can benefit                          | Local and regional school education authorities, schools, pupils, teachers, parents and other relevant associations and stakeholders in school education/ youth work in their respective region/ municipality.  |
| Who can apply                            | Applications must be submitted by local and regional authorities with a role in school education;   |

|  | a list of eligible authorities will be made available by the national authorities of each participating  |

There is an appropriate balance between partner regions in terms of their involvement in the activities to be carried out. Appropriate measures have been planned to ensure effective communication and cooperation. The application makes clear how schools and other actors at local or regional level will be involved in the project activities and contribute to the activities and results. The project management arrangements are appropriate.

## 3. Relevance

The proposal relates to one or more of the objectives of the Comenius Programme. The Comenius Regio Partnership is relevant to the development of school education in the regions involved.

### 4. European added value

The impact and benefits of European cooperation on the participating institutions and regions are clear and well defined. The regions outlined their approach to foster European cooperation in the school education sector and described how the Comenius Regio Partnership might contribute to that.

# 5. Impact

The expected impact on both partner regions is clear and well defined. The partnership has developed an approach to assess whether the aims of the partnership have been met and the expected impact achieved. Monitoring and evaluation of the project activities are well defined.

## 6. Quality of dissemination and exploitation of results

Results are transferable and other regions can profit from the project's experiences. The activities planned for dissemination and exploitation of results are relevant and well defined. They cover the participating organisations and, if possible, the wider community.

#### 7. Sustainability

The measures to ensure the sustainability of results are clear and convincing.

# 8. The cost-benefit ratio

The budget and its justification are convincing and relate well to the activities planned. The planned mobilities are eligible and fit to aims of the project.

| Action  | COMENIUS Multilateral Networks   |
| Objectives and description of the action      | Comenius Multilateral Networks encourage the networking of educational establishments and organisations. They are designed to promote European co-operation and innovation in specific thematic areas of particular importance to school education in a European context. They therefore target priority thematic areas mentioned in the Call for Proposals.   |
|   | <ul> <li>Such networks will constitute:</li> <li>A forum for joint reflection and co-operation in identifying and promoting innovation and best practice in the thematic area concerned; or</li> <li>A platform to assist the persons and institutions involved in Comenius in strengthening their co-operation, and enabling them to maintain and consolidate their European co-operation beyond the period of EU support for their specific projects.</li> </ul>   |
|   | <ul> <li>Within the priorities announced in the Call for Proposals, the following activities may be supported:</li> <li>Activities to promote educational innovation and best practice in the thematic area concerned, such as comparative analyses, case studies, formulating recommendations and organising working groups, seminars or conferences and other dissemination activities;</li> <li>Activities to facilitate and enhance European co-operation, such as exchanging information, training of project co-ordinators, promoting new projects, disseminating project results and good practice.</li> </ul>  |
|   | As a minimum, each network will be expected to:  • Establish a website and other appropriate tools to support information exchange and dissemination;  • Produce an annual report on the state of innovation in its area of activity;  • Provide the 'players' in Comenius with full information about the network's events and activities;  • Organise an annual meeting of Comenius projects working in the thematic area of the network. This meeting can be in the form of an open seminar or conference, combining several objectives of the network  |

| Objectives and description of the action | eTwinning promotes school collaboration and school networking in Europe through the use of Information and Communication Technologies (ICT). It provides advice, ideas and tools to make it easy for schools to set up partnerships and start collaborative projects in any subject area.  eTwinning assists schools at both European level, through the Central Support Service (CSS), and at national level, through the National Support Services (NSS).  The Central Support Service provides the European eTwinning portal, offers a helpdesk for |
|  | teachers, publishes information material on eTwinning and organises periodically online learning events and teachers' professional development workshops across Europe. It also works in close collaboration with the National Support Services to ensure shared practice and a coordinated approach to eTwinning on a European level.   |
|  | The European eTwinning portal is a fully multilingual website offering collaboration tools and services through which teachers register, find partners and work together with them. It also serves as a meeting point where all interested teachers can share resources, discuss and find partners for other Comenius actions.   |
|  | The National Support Services (NSS) are organisations appointed by the ministries of education who promote eTwinning at a national level. They organise specific training sessions for teachers and ensure that eTwinning approaches fit the particular needs of the local schools.  For more detailed information refer to the eTwinning portal <a href="http://www.etwinning.net">http://www.etwinning.net</a> .   |

| Action Category           | CHARTER   |
| Action                    | ERASMUS University Charter  |
| Objectives and            | The Erasmus University Charter (EUC) provides the general framework for the European co-  |
| description of the action | operation activities a higher education institution (HEI) may carry out within the Erasmus programme. It is a prerequisite for HEI to organise student mobility and teaching and other staff mobility, to carry out Erasmus intensive language courses and intensive programmes, and to apply for multilateral projects, networks, accompanying measures and to organise preparatory visits.  |
|                           | Specifically, the EUC allows higher education institutions to apply for Erasmus funding to:  Send its students for studies to HEI abroad Receive students for placements to enterprises and other organisations such as HEI abroad Send its students for placements to enterprises and other organisations such as HEI abroad Receive teaching staff to HEI abroad Receive invited teaching staff from enterprises abroad Receive invited teaching staff from enterprises abroad Receive staff for training abroad Receive staff for training from HEI abroad Organise Erasmus Intensive Language Courses (EILCs) Coordinate Erasmus Intensive Programmes (IPs) Coordinate Erasmus multilateral projects Coordinate Erasmus academic networks Coordinate accompanying measures Organise preparatory visits  |
|                           | In addition, EUC holders may apply for the ECTS/DS label through a specific call for proposals. See the Executive Agency website for further information.  Awarded by the European Commission following a call for proposals, the Charter sets out the  |
|                           | fundamental principles and the minimum requirements with which the higher education institution must comply when implementing its Erasmus activities.   |
|                           | The institution's application for an EUC includes an Erasmus Policy Statement (EPS) setting out the institution's overall Erasmus co-operation plan in coherence with the strategy defined in the mission statement of the institution and specifying the measures and actions the institution intends to introduce in order to fulfil the requirements of the Charter. The EPS should be published and given wide visibility.  |
|                           | <ol> <li>Higher education institutions can apply for three different types of charters:</li> <li>The Standard Erasmus University Charter is for institutions which wish to apply for Erasmus funding for transnational student mobility for studies, for transnational mobility activities for teachers and other staff and/or to apply for EILCs, Erasmus IPs, multilateral projects, networks, accompanying measures or preparatory visits.</li> <li>The Extended Erasmus University Charter (Student Placements only) is for institutions which wish to apply only for Erasmus funding for transnational student mobility for placements.</li> <li>The Extended Erasmus University Charter (Standard Charter and Student Placements) is for institutions which wish to apply for activities covered by both the Standard and the Extended University Charter (Student Placements only).</li> </ol> |
|                           | When awarding the EUC, the Commission informs the recipient institution as to whether its Charter refers to study activities or placements or both.   |
|                           | The EUC is awarded for the entire duration of the Lifelong Learning Programme (LLP). EUC compliance is monitored on an ongoing basis, and the Charter may in the last resort be withdrawn by the Commission if an institution fails to meet its EUC commitments.  |
|                           | Institutions and national authorities shall notify the European Commission without delay of any change in the situation or status of the institution which might necessitate changes to or withdrawal of the Charter, such as mergers and splits of institutions.   |

| Action   | ERASMUS Consortium Placement Certificate   |  |
| Objectives and   | The Erasmus Consortium Placement Certificate recognises the financial and operational capacity   |  |
| description of the action  | of a consortium to organise Erasmus student placements and apply for its funding. It entitles the consortium to apply to the National Agency for Erasmus student placements and organisation of mobility funds.  |  |
|  | A placement consortium can be defined as a group of higher education institutions holders of an Extended Erasmus University Charter and possibly other organisations (enterprises, associations, chambers of commerce, foundations, etc.) working together to facilitate placements for higher education students. Most consortia do not have a separate legal entity but rely on the legal entities of their members. The consortium coordinator is the organisation at the head of the consortium.  The Erasmus Consortium Placement Certificate is awarded by the National Agencies to experienced consortia for a renewable 3-year period with 2013 as maximum date of validity. For newly constituted consortia without any previous experience or achievements, the Certificate is awarded for the next academic year only.  The Certificate is awarded to a consortium that has agreed to make every effort to ensure high quality in organising Erasmus student placement.  Within a consortium, each of the higher education institution sending students on placement remains responsible for the quality, the content and the recognition of the placement as agreed in the Training Agreement endorsed by the student, his/her home institution and the host   |  |
|  | enterprise including the Quality Commitment. Compliance with the Erasmus Consortium Placement Certificate is monitored. Violation by the consortium of its commitments may lead to the withdrawal of the Erasmus Consortium Placement Certificate by the National Agency.  The consortium coordinator shall notify the National Agency concerned without delay of any change in the composition, situation or status of the consortium which might necessitate changes to or withdrawal of the Erasmus Consortium Placement Certificate.   |  |

| Objectives and description of the action | The main objective of the action is to help higher education institutions (HEI) to establish contacts with prospective partner institutions with a view to establishing:  - New inter-institutional agreements (not renewals) relating to student and/or staff mobility;  |
|  | - Erasmus student placements; - Erasmus Intensive Programmes; - Erasmus networks; - Erasmus multilateral projects;  |
|  | - Erasmus accompanying measures.  Erasmus placement consortia may use preparatory visits to organise Erasmus student placements.  |
|  | Preparatory visit grants may also be used to participate in a partner-finding "contact seminar" organised by a National Agency. Details of the seminars are available on request from National  |
|  | Agencies.  In addition, if there is no consortium in their country, preparatory visit grants may be awarded to enterprises or other organisations for the purpose of helping them benefit from the experience of  |
|  | consortia abroad in view of establishing a consortium for the organisation of Erasmus student placements.   |
|  | In order for an HEI to be able to apply for a preparatory visit grant, it must be the holder of an Erasmus University Charter (EUC).  |
|  | The preparatory visit grant may be used to visit:  - Either one or more prospective partner higher education institutions (the visited HEIs do not need to have an EUC);  - Or an enterprise or organisation.   |

| Action Category               | MOBILITY  |  |  |
| Action                        | ERASMUS Organisation of Mobility  |  |  |
| Objectives and                | This support measure concerns the organisation of the following mobility actions:   |  |  |
| description of the action     | <ul> <li>Student mobility for studies</li> <li>Student mobility for placements</li> <li>Staff mobility - Teaching assignments</li> <li>Staff mobility - Staff training</li> </ul>   |  |  |
|                               | The organisation of mobility of students and staff (OM) involves creating optimal conditions, through quality support measures, for outgoing and incoming students and staff to undertake periods of learning, training or teaching at higher education institutions or enterprises in other participating countries. HEIs receive an OM grant as management fee, whose amount depends on the number of outgoing mobilities and incoming teaching staff from enterprises. Placement consortia receive an OM grant as management fee, whose amount depends on the number of outgoing student mobilities for placements.  |  |  |
|                               | Organisation of mobility may include the following non-exhaustive list of activities:  • Provisions for selecting students and staff to take part in mobility activities;  • Providing linguistic preparation for mobile students and staff;  • Providing information and assistance to incoming and outgoing students and staff (e.g. introduction to the host institution/organisation, welcome services, academic advice to  |  |  |
|                               | <ul> <li>students, assistance with practical matters such as accommodation, social security, residence permits, travel, provision of tutor/mentor for incoming students);</li> <li>Academic and organisational arrangements with partner institutions (e.g. for students, the recognition of study periods abroad; for teachers, the inclusion of courses taught in the regular programme of the host institution; arrangements for student and course assessment, etc.; this may involve visits to partner institutions holders of EUCs);</li> <li>Visits to prospective partner institutions holders of an EUC to explore and establish interinstitutional agreements;</li> </ul> |  |  |
|                               | <ul> <li>Development and use of the European Credit Transfer and Accumulation System (ECTS) and the Diploma Supplement (DS);</li> <li>Ensuring that students are provided with the necessary agreements on their programme of study/placement and the related assessment arrangements (i.e. learning agreements,</li> </ul>   |  |  |
|                               | <ul> <li>training agreements);</li> <li>Arrangements for the monitoring of outgoing students, including visits to partner institutions or organisations;</li> <li>Organisation of feedback from returning students and staff, and making feedback available to prospective; outgoing students and staff (this may include helping local student organisations or selected students in various departments to provide information and</li> </ul>   |  |  |
|                               | counselling services to outgoing or incoming students);  • Specific arrangements to ensure the quality of student placements in enterprises.  • Provide information and publicity about the Erasmus programme (student and staff mobility).   |  |  |
| Who can benefit               | Higher education institutions which hold an Erasmus University Charter and its students and its staff     Placement consortia which hold an Erasmus Consortium Placement Certificate  |  |  |
| Who can apply                 | There is no application for Organisation of Mobility grants as such for higher education institutions and placement consortia. The amount of the awarded grant for Organisation of Mobility depends on the number of outgoing mobilities and the incoming mobilities of invited staff from enterprises for which a grant has been awarded and on the applicable grant tables.   |  |  |

| Objectives and description of the action | This action enables students at higher education institutions to spend an integrated period of study of between 3 months and 12 months in another participating country.   |  |  |  |
|  | <ul> <li>The objectives of student mobility for studies are:</li> <li>To enable students to benefit educationally, linguistically and culturally from the experience of learning in other European countries;</li> </ul>   |  |  |  |
|  | <ul> <li>To promote co-operation between institutions and to enrich the educational environment of host institutions;</li> <li>To contribute to the development of a pool of well-qualified, open-minded and</li> </ul>  |  |  |  |
|  | internationally experienced young people as future professionals.  |  |  |  |
|  | Erasmus student mobility for studies is carried out in the framework of prior "inter-institutional agreements" between home and host institutions, both of which must be holders of an Erasmus University Charter.   |  |  |  |
|  | Erasmus students are selected by their home HEI in a fair and transparent way.   |  |  |  |
|  | Prior to their departure, Erasmus students sign a study agreement which includes the following documents:  |  |  |  |
|  | <ul> <li>A "Learning Agreement" setting out the programme of studies to be followed, as approved by the student, the home and the host institution;</li> <li>The "Erasmus Student Charter" setting out the student's rights and obligations with respect to his/her period of study abroad.</li> </ul>   |  |  |  |
|  | At the end of the period abroad, the host institution must provide the Erasmus student and his/her home institution with a transcript of records confirming that the agreed programme has been completed and confirming the results. The home institution must give full academic recognition for satisfactorily completed activities during the Erasmus mobility period as agreed in the Learning Agreement, preferably by using ECTS credits. The Erasmus mobility period should also be recorded in the Diploma Supplement. |  |  |  |
|  | Students may be awarded an Erasmus grant to help cover the travel and subsistence costs (including insurance and visa costs) incurred in connection with their study period abroad.  |  |  |  |
|  | Erasmus students - whether or not they receive an Erasmus grant - are exempted from paying fees for tuition, registration, examinations and access to laboratory and library facilities at the host institution. The payment of any national grant or loan to outgoing students should be maintained during the Erasmus study period abroad.   |  |  |  |
|  | An Erasmus student may follow, if offered, an Erasmus Intensive Language Course in the host language before the study period, for which a grant may also be awarded. For more information, see the specific information on Erasmus Intensive Language Courses.   |  |  |  |
|  | Students with special needs may apply for a specific grant after they have been selected for a mobility period.  |  |  |  |

| Objectives and description of the action        | This action enables students at higher education institutions to spend a placement period between 3 months and 12 months in an enterprise or organisation in another participating country.   |  |  |
|   | <ul> <li>The objectives of student mobility for placements are:</li> <li>To help students to adapt to the requirements of the EU-wide labour market;</li> <li>To enable students to develop specific skill including language skills and to improve understanding of the economic and social culture of the country concerned in the context of acquiring work experience;</li> <li>To promote cooperation between HEI and enterprises;</li> <li>To contribute to the development of a pool of well-qualified, open-minded and internationally experienced young people as future professionals.</li> </ul> |  |  |
|   | Student 'placement' is an alternative term to the widely used term 'traineeship' or 'internship'. Host organisations for student placements may be enterprises, training centres, research centres and other organisations.   |  |  |
|   | Erasmus students are selected by their home HEI in a fair and transparent way.  |  |  |
|   | Prior to their departure, students sign a placement agreement which includes the following documents:   |  |  |
|   | <ul> <li>A "Training Agreement" regarding its specific programme for the placement period; this agreement must be endorsed by the home higher education institution and the host organisation;</li> <li>A "Quality Commitment" setting out the right and obligations of all the parties specifically</li> </ul>   |  |  |
|   | for placements abroad.  • The "Erasmus Student Charter" setting out the student's rights and obligations with respect to his/her mobility period abroad.  |  |  |
|   | At the end of the period abroad, full recognition must be given by the home higher education institution for the period spent abroad as agreed in the Training Agreement.   |  |  |
|   | Students may be awarded an Erasmus grant to help cover the travel and subsistence costs (including insurance and visa costs) incurred in connection with their placement period abroad.   |  |  |

| Subprogramme  | ERASMUS  |  |  |
| <b>Action Category</b>  | MOBILITY   |  |  |
| Action  | ERASMUS Staff Mobility - Teaching Assignments by HEI Teaching Staff and by Invited Staff from Enterprises  |  |  |
| Objectives and description of the action                                  | This action enables staff to spend a teaching period between 1 day - or at least 5 teaching hours - and 6 weeks at a higher education institution in another participating country. A minimum duration of 5 working days is strongly recommended.  |  |  |
|   | <ul> <li>The objectives of this staff mobility for teaching are:</li> <li>To encourage higher education institutions to broaden and enrich the range and content of courses they offer;</li> <li>To allow students who do not have the possibility to participate in a mobility scheme, to benefit from the knowledge and expertise of academic staff from higher education institutions and from invited staff of enterprises in other European countries;</li> <li>To promote exchange of expertise and experience on pedagogical methods;</li> <li>To create links between higher education institutions and with enterprises;</li> <li>To motivate students and staff to become mobile and to assist them in preparing a mobility period.</li> </ul> |  |  |
|   | The teaching assignments may be carried out by teaching staff of higher education institutions and by invited staff of enterprises. In all cases, the activities of staff undertaking a teaching assignment should be integrated into the curricula of the host institution.   |  |  |
|   | The partner higher education institutions/enterprise must have agreed on the programme of the activities to be undertaken by the visiting teachers (teaching programme) prior to the start of the mobility period. When the person carrying out the assignment is from a higher education institution, the assignment must be based on an inter-institutional agreement between the home and host institution.   |  |  |
|   | Teaching staff of higher education institutions are selected by the sending institution, staff of enterprises by the host institution.   |  |  |
|   | In the case of staff mobility from an enterprise to a higher education institution, the mobility is arranged by an invitation of the higher education institution to the staff member of the enterprise. The grant is always managed by the higher education institution.  |  |  |
| Who can benefit   | Staff members with special needs may apply for a specific grant after they had been selected for a mobility period.  - Higher education institution teaching staff   |  |  |
|   | - Staff of enterprises   |  |  |

| Action                                   | ERASMUS Intensive Language Courses   |  |  |
| Objectives and description of the action | The Erasmus Intensive Language Courses (EILC) are specialised courses in the less widely used and less taught languages organised in the countries where these languages are used as teaching languages at HEIs. The languages English, German, French and Spanish (Castilian) are not eligible for EILC.  |  |  |
|  | The EILCs take place in the following countries for the eligible languages in brackets: Belgium (Dutch), Bulgaria (Bulgarian), Croatia (Croatian), Cyprus (Greek), Czech Republic (Czech), Denmark (Danish), Estonia (Estonian), Finland (Finnish and Swedish), Greece (Greek), Hungary (Hungarian), Iceland (Icelandic), Italy (Italian), Latvia (Latvian), Lithuania (Lithuanian), Malta (Maltese), the Netherlands (Dutch), Norway (Norwegian), Poland (Polish), Portugal (Portuguese), Romania (Romanian), Slovakia (Slovak), Slovenia (Slovenian), Spain (Catalan, Valencian, Basque and Galician), Sweden (Swedish), Switzerland (Italian) and Turkey (Turkish). |  |  |
|  | The EILC give Erasmus students visiting these countries for studies and placements the opportunity to study the language concerned for two to six weeks (with a minimum of 60 teaching hours in total, and at least 15 teaching hours a week) with the aim of being prepared for the Erasmus mobility period.  |  |  |
|  | Small groups of participants are strongly recommended (around 15). The minimum number of participants shall be 10. The cost effectiveness of the EILC has to be ensured.   |  |  |
|  | Supplementary mobility grants for Erasmus students participating in EILC may be awarded and paid by the respective sending higher education institutions. Erasmus students may not be charged a study fee for participation in an EILC course. However, fees may be charged for excursions and similar optional events and for other charges that Erasmus students normally may be asked to pay.   |  |  |
|  | The selection of the EILC organising institutions is carried out by the National Agency (NA) in the country where the course is to be organised.   |  |  |
|  | Students apply for participation in an EILC through their home institution. Comenius and Grundtvig assistants apply directly to the EILC host institution. The selection of EILC students is the joint responsibility of the EILC organising institutions and the NA in the host country.  |  |  |
|  | Students with special needs may apply for a specific grant after they have been selected for a mobility period.  |  |  |

### **EVALUATION AND SELECTION PROCEDURES** Please consult Part I of this Guide, chapter WHAT IS THE LIFECYCLE OF A PROJECT for further information about the evaluation and selection procedures **Eligibility Criteria** General eligibility rules: The general eligibility criteria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3. Participating countries: please refer to Part I of this Guide, section "Which countries participate in the Programme?" Specific eligibility Applications must be submitted by bodies which are legal entities. Courses may be organised by higher education institutions or other organisations specialised in language training in the less widely used and taught languages in the host country. Organising institutions can apply from the following countries: Belgium (Flemish Community), Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Greece, Hungary, Iceland, Italy, Latvia, Lithuania, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and Turkey. Erasmus students/Comenius assistants/Grundtvig assistants from all countries participating in LLP can apply to participate in the courses. The minimum number of participants shall be 10. Minimum number of Not applicable Countries: Minimum number of Not applicable Partners: **Comment on** participants: **Award criteria** 1. Relevance The proposal demonstrates a clear link to the operational objectives of Erasmus in the LLP. The course will be cost-effective. 2. Objectives and work programme The objectives of the course in preparing participants for a mobility period in the country concerned are clear, realistic, address a relevant language and are oriented towards the needs of the target group. The learning outcomes are indicated. The work programme is of good quality and will ensure the delivery of the objectives. There is an appropriate cultural component of the course 3. Methodology The methodology is appropriate to attaining the objectives. The pedagogical and didactical approach is clearly described. The methods for the assessment of the participants' language skills at the end of the course are clearly described. ECTS credits will be awarded to students participating in the EILC. 4. Quality of the course provider The provider of the course has suitably qualified and experienced teachers for providing the language training envisaged. The provider of the course has appropriate technical equipment (in terms of appropriate teaching aids, existence of a library and language laboratory). 5. Impact The described learning outcomes appear likely to have the desired positive impact on participants' competence in the target language concerned. The proposal points out activities for the dissemination and exploitation of the course results. **CONTRACTING PROCEDURES** Probable sending date of pre-information on the results of the selection process See NA website Probable sending date of agreement to the beneficiaries See NA website Probable starting date of the action June

| Objectives and description of the action    | <ul> <li>An Intensive Programme (IP) is a short programme of study (10 continuous full days to 6 weeks of subject related work) which brings together students and teaching staff from higher education institutions of at least three participating countries in order to: <ul> <li>Encourage efficient and multinational teaching of specialist topics which might otherwise not be taught at all, or only in a very restricted number of HEIs;</li> <li>Enable students and teachers to work together in multinational groups and so benefit from special learning and teaching conditions not available in a single institution, and to gain new perspectives on the topic being studied;</li> <li>Allow members of the teaching staff to exchange views on teaching content and new curricula approaches and to test teaching methods in an international classroom environment.</li> </ul> </li> </ul> |  |  |
|   | <ul> <li>Desirable features of an IP are the following:         <ul> <li>It may not consist of research activities or conferences, but should provide something significantly new in terms of learning opportunities, skills development, access to information, etc. for the participating teachers and students and promote an element of curricular development.</li> </ul> </li> <li>Effort should be made that the workload of participating students is recognised through the</li> </ul>  |  |  |

|   | In addition to the learning outcomes on subject-related competences, IPs should favour the transmission of transversal competences.  |  |  |
|   | An IP can be a one-off activity or repeated over a limited number of years (maximum duration of funding three consecutive years, annual application).  |  |  |
|   | Applications must be submitted to the National Agency (NA) of the institution that coordinates the IP, on behalf of all the partners. An IP with the same or a very similar partnership and the same or a very similar topic may apply to only one National Agency under the LLP General Call for Proposals 2011-2013.   |  |  |
|   | All higher education institutions participating in the IP must hold the Erasmus University Charter.  |  |  |
|   | Selection is carried out by the NA of the institution that coordinates the IP. If the coordination of an IP (selected under the previous call for proposals) is moving to a different HEI in another country (or in case of Belgium to a different National Agency) the application will be assessed on the same basis as a new application. However, also in this case, the total duration of funding for the same or very similar IP may not exceed 3 years.   |  |  |
|   | The selection of IP participants (teaching staff and first, second and third cycle students) is carried out by the IP consortium.  |  |  |
|   | Students and teaching staff with special needs may apply for a specific grant after they have been selected for an IP.   |  |  |
| Who can benefit                             | Students and teaching staff from the IP participating institutions.  |  |  |
| Who can apply                               | The co-ordinating higher education institution of the IP (which must hold an Erasmus University Charter), on behalf of the IP participating institutions (all holding an Erasmus University Charter).  |  |  |

| Award criteria                                   | Quality assessment of new applications  |
|  | 1. Relevance  |
|  | The benefits of European cooperation in providing intensive teaching on the subject concerned –   |
|  | i.e. the added value of offering the IP, compared to existing courses at the level of the   |
|  | participating institutions - are clear and well defined. The IP presents a strong multidisciplinary   |
|  | approach, fostering the interaction of students from different academic disciplines. The proposal   |
|  | demonstrates a clear link to the operational objectives of Erasmus under the LLP.  2. Quality of the objectives; innovative character   |
|  | The objectives and rationale of the IP are clear, realistic and address a relevant subject for which  |
|  | there is a demonstrable need. The IP will provide something significantly new in terms of   |
|  | learning opportunities, skills development, access to information, etc. for the participating   |
|  | teachers and students.  |
|  | 3. Methodology and work programme   |
|  | The methodology is appropriate for achieving the objectives. The pedagogical and didactical approach is clearly described. The proposal identifies the target groups. The selection method of the participating students is explained. The ratio of staff to students guarantees active classroom participation.  |
|  | 4. Learning outcomes, ECTS and recognition  |
|  | The expected learning outcomes are appropriate. In addition to the learning outcomes on subject-related competences, IPs favour the transmission of transversal competences. The workload of participating students should be recognised through the ECTS (or otherwise equivalent) credits. The proposal describes the provisions to ensure recognition of the studies undertaken within the IP.   |
|  | 5. Partnership, project management, monitoring and evaluation   |
|  |   |

The partnership is of good quality. The task distribution among the partners is organised in such a way that the results can be achieved and all partners are actively involved. There is an appropriate balance between partners in terms of their competences and their involvement in the activities to be carried out. Appropriate measures have been planned to ensure effective communication and cooperation among the partners. The financial and contractual arrangements are clearly spelled out. The monitoring and evaluation measures of the IP are clearly defined and they are effective. Higher points can be given to partnerships involving HEIs that have not yet participated in Erasmus Intensive Programmes.

### 6. Dissemination and exploitation of results; impact of the IP

The activities for dissemination and exploitation of the IP results are well planned and ensure optimal use of the results in the participating institutions and, if possible, in the wider community. The proposal describes the way how ICT tools and services will be used to support the follow-up of the IP, thereby contributing to the creation of a sustainable learning community in the subject area concerned. The results envisaged are relevant and will have a demonstrable potential impact on the quality of teaching provided in the subject area concerned at the participating institutions. The proposal indicates multiplying effects or possible spin-offs of the IP.

#### **Quality assessment of renewals**

The renewal application can be accepted if on the basis of the available information of the first/second year intensive programme no major problems have been identified and if the applicant does not intend to introduce any changes which would have such an impact on the quality of the intensive programme which would justify not to provide funding for the second/third year.

| Action                                   | ERASMUS Academic Networks  |
| Objectives and description of the action | Erasmus academic networks are designed to promote European co-operation and innovation in specific subject areas. They contribute to enhancing quality of teaching in higher education, defining and developing a European dimension within a given academic discipline, furthering innovation and exchanging methodologies and good practices. This is achieved by means of co-operation within the network between higher education institutions, university faculties and departments and may also involve professional associations and enterprises as well as other organisations.  |
|  | All networks should bring together an appropriate range of relevant stakeholders concerned by the theme addressed and shall address topics of direct relevance for the European higher education policy. The main focus shall be sharing knowledge, discussing methodologies, promoting the exchange of experience and disseminating good practice in this field as well as producing and promoting creativity and innovation. Networks shall address current, emerging and future developments of the subject area. Co-operation within networks is expected to lead to outcomes which will have a lasting and widespread impact on higher education institutions and their environment across Europe in the field concerned.   |
|  | Each year, network proposals focusing on subject areas and themes not extensively covered by networks already being funded under this action are particularly encouraged, in order to arrive at an optimal coverage of academic disciplines. Information on networks funded in previous calls can be found in the Erasmus project compendia on the following website: <a href="http://eacea.ec.europa.eu/llp/erasmus/erasmus">http://eacea.ec.europa.eu/llp/erasmus/erasmus</a> compendia en.html  |
|  | The following is an indicative list of the kind of activities which academic networks will tend to focus on:   |
|  | <ul> <li>Mapping the field. This might typically involve describing, analysing, and comparing existing teaching methods, and defining and experimenting with new ones, identifying existing high quality teaching material and placing it at the disposal of the members of the network.</li> <li>Quality assurance related to an academic thematic area.</li> <li>Facilitating European co-operation. Assessing the state of the art in European co-operation, identifying needs and obstacles and ways to overcome them. Setting up tools and European strategies (such as to improve the use of ECTS, new governance models etc.).</li> <li>Defining and updating generic and sectoral competences using learning outcome and student-centres methodologies in the thematic area of the network, such as following the approach of the pilot project "Tuning Educational Structures in Europe" in the discipline of the network.</li> <li>Promoting synergies between teaching and research, notably by encouraging higher education institutions to integrate research results in their teaching and linking Erasmus academic networks with Networks of Excellence funded by the Seventh Framework Programme of the European Community for Research, Technological Development and Demonstration Activities.</li> <li>Reinforcing the link between education and society, bringing together public and private sector, scientific and professional players, thereby contributing to Europe's innovation capacity.</li> </ul> |
|  | As a minimum, each network is expected to carry out the following operational activities:  • Create a website and other appropriate tools to support information exchange and dissemination;  • Produce an annual report on the state of innovation in its area of activity;  • Provide the 'players' in Erasmus with full information about the network's events and activities;  • Organise an annual meeting in the thematic area of the network. The meeting may also bring together representatives of other Erasmus-supported activities in the field concerned, including notably multilateral projects and intensive programmes. It can take the form of an open seminar or conference, thereby encouraging collaboration between Erasmus-supported projects and other relevant initiatives;  • Take appropriate measures regarding the evaluation of the network's performance.   |
|  | One of the organisations participating in the network project must act as the co-ordinator. However, it is expected that other network partners take the lead on implementing the different parts of the work programme. It is vital that the whole of the network be actively associated with its activities.   |
| Who can benefit                          | <ul> <li>Higher education institutions</li> <li>Public bodies</li> <li>Enterprises</li> <li>Associations and other relevant organisations active in relation to higher education         Note: This Action is open to partner organisation from countries not participating in the Lifelong         Learning Programme on the following conditions:         <ul> <li>Neither the applicant nor the organisation responsible for project management / coordination can be a third country partner;</li> <li>Third country participation is an additional option in an otherwise normal, eligible</li> </ul> </li> </ul>   |

### 7. Impact

The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the activities are likely to be significant.

# 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results)

The planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project.

# 9. Where applicable: Participation of organisations from third countries

Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money

| Objectives and description of the action | Erasmus multilateral projects provide support for cooperation of higher education institutions among themselves or together with other relevant stakeholders.  Innovative projects focusing on themes not extensively covered by projects already being funded under this action are particularly encouraged. Information on projects funded in previous calls can be found in the Erasmus project compendia on the following website: <a href="http://eacea.ec.europa.eu/llp/erasmus/erasmus">http://eacea.ec.europa.eu/llp/erasmus/erasmus compendia en.html</a> .  |  |  |
|  | Applicants must choose one of the following priorities:   |  |  |
|  | 1. Cooperation between higher education institutions (HEI) and enterprises: Projects under this priority shall support activities bringing together HEI and partners from outside academia: enterprises, professional organisations, chambers of commerce, social partners or local/regional bodies, etc. These projects have to prove cooperation between the worlds of work and higher education, with active participation and commitment of institutions and organisations from both sides.   |  |  |
|  | 2. Social dimension of higher education: Projects under this priority shall support actions aiming at increasing access to and improving the social dimension in higher education. The major objectives are the widening of the participation and raising completion rates of underrepresented groups (due to the factors such as socio-economic background, disability, ethnic or migrant background etc.) and non-traditional learners (part-time students, those with demanding family responsibilities, adult learners etc.) enhancing lifelong learning via the creation of flexible learning paths, developing ways to increase the social responsibility of higher education institutions, and improvement of gender balance on particularly unbalanced fields of study.   |  |  |
|  | 3. <b>Mobility strategies and removal of barriers to mobility in higher education:</b> Projects under this priority shall support activities to develop innovative strategies to boost mobility or ways to remove obstacles to mobility in higher education. This priority also caters for projects that support virtual mobility that are embedded in a global strategy for the effective integration of ICT in the participating higher education institutions.   |  |  |
|  | 4. <b>Support to the modernisation agenda of higher education:</b> Projects under this priority shall support activities in line with the European modernisation agenda for higher education. Projects must address at least one of the following reform areas on the modernisation agenda of universities: (4.1) curriculum reform (including curriculum development projects), (4.2) governance reform or (4.3) funding reform.   |  |  |
|  | Projects focused on curriculum development should include the transmission of transversal skills, covering either (1) a complete cycle of study (at bachelor, at master or at doctoral level) and leading to a recognised double or joint degree; (2) a complete cycle of study in highly interdisciplinary areas; or (3) curricula and modules for continuing education designed to update knowledge and skills obtained in the past. These should also satisfy the following requirements:  |  |  |
|  | <ul> <li>The first year(s) of the project should focus on the content development of the curricula and modules, whereas the last year of the project should be devoted to achieve agreement on admission criteria, learning outcomes, assessment criteria, quality assurance and recognition (use of the European Credit Transfer and Accumulation System - ECTS), Diploma Supplement (DS) as well as to the testing of the course and the promotion of the project among possible employers of graduates.</li> <li>At the conclusion of the project, the joint curriculum and /or modules must be ready for delivery. These programmes or modules should be delivered by partner institutions in a genuinely integrated manner, involving student and staff mobility. Participating institutions should commit to the enrolment of first students soon after the end of the project. Students should be awarded at the end of the course multiple or joint degrees (or certificates for modules), recognised by the participating institutions and countries.</li> </ul> |  |  |
|  | 5. <b>Fostering the excellence and innovation in higher education:</b> Projects under this priority shall support activities addressing the knowledge triangle of education, research and innovation. European higher education institutions have demonstrated great potential in both teaching and research, but often the two areas are neither interrelated in an optimal way nor well connected to the third side of the triangle, innovation. These projects shall attempt to fill in this gap, complementing EU initiatives to link these three areas in new and efficient ways.  |  |  |

### 4. Quality of the Consortium

The consortium includes all the skills, recognised expertise and competences required to carry out all aspects of the work programme, and there is an appropriate distribution of tasks across the partners.

# 5. European Added Value

The benefits of and need for European cooperation (as opposed to national, regional or local approaches) are clearly demonstrated.

### 6. The Cost-Benefit Ratio

The grant application demonstrates value for money in terms of the activities planned relative to the budget foreseen.

#### 7. Impact

The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the activities are likely to be significant.

# 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results)

The planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project.

### 9. Where applicable: Participation of organisations from third countries

Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money

| Objectives and description of the action | <ul> <li>The aim is to support various activities which, though not eligible under the main Erasmus Programme, will clearly contribute to achieving its objectives. Projects should be innovative, self-standing and should aim at: <ul> <li>having a clear relevance to the European Modernisation Agenda of Higher Education and raising awareness of relevant target groups or the general public on the importance of European cooperation in the field of higher education more generally;</li> <li>enhancing the implementation of Erasmus mobility by reaching a substantial part of the students (for example broad scale projects for promotion of mobility, for boosting mobility in subject areas that are currently under-represented in Erasmus mobility, for coping with problems like recognition of studies during the mobility period);</li> <li>focusing on dissemination of project results (Dissemination is normally part of all projects funded by LLP. An Accompanying Measures project may only get funding for dissemination if the proposed activities go beyond of what is expected from the integral dissemination activities of any Erasmus centralised project. The applications must clearly describe the activities undertaken as part of the dissemination plans of the past Erasmus centralised projects, and demonstrate how the proposed activities bring added value to what has</li> </ul> </li> </ul> |  |  |
|  | <ul> <li>already been done);</li> <li>fostering trans-sectoral synergies between the actions of the LLP on precise themes;</li> <li>implementing activities specifically concerning aspects of transversal policies in which the Erasmus programme is called upon to play a part, including in particular, the promotion of equality between women and men, the integration of persons with disabilities and other people with special needs, and the promotion of intercultural education and the fight against racism;</li> <li>carrying out other activities focussing on specific themes, target groups or contexts, as justified by the needs of the current educational situation in higher education in the participating countries.</li> </ul>   |  |  |
|  | <ul> <li>The activities supported could be the following (indicative list):</li> <li>Organisation of conferences, seminars and training activities concerning European cooperation in the field of higher education;</li> <li>Studies and analyses;</li> <li>Awareness-raising activities, such as targeted promotional and information campaigns, competitions etc.;</li> <li>Information and communication activities to promote and improve the visibility of activities and results within the programme.</li> </ul>   |  |  |

| Subprogramme   | LEONARDO DA VINCI  |  |  |
| Action Category  | CERTIFICATES   |  |  |
| Action   | LEONARDO DA VINCI Mobility Certificate   |  |  |
| Objectives and   | The Leonardo da Vinci Certificate in Mobility is a recognition of the capacity of an institution to  |  |  |
| description of the action  | implement a Leonardo da Vinci mobility project of excellent quality. The quality aspects cover the content of the mobility activity (policy, strategy, workprogramme) as well as the operational and financial capacity of the institution.  |  |  |
|  | The Leonardo da Vinci certificate in mobility is awarded by the National Agencies on the basis of an application linked or annexed to a mobility project application introduced at the same call-deadline. It will be delivered for a period of 4 years (max. until the end of the LLP in 2013). The certificate will allow a simplified grant application in the following calls.   |  |  |
|  | In the application for the certificate, the institution will be asked to describe its previous experiences and achievements in Leonardo da Vinci mobility. It will also show the extent to which international mobility is part of the organisations' policy and if quality management is ensured. Further project developments planned will be described.   |  |  |
|  | The Leonardo Mobility Certificate will be delivered to a limited number of institutions in order to ensure that the programme remains open to potential new applicants. A certificate can cover several target groups (IVT, PLM and/or VETPRO) if project applications exist for those groups. It remains, however, linked to the project and can not be automatically extended to other departments or branches, except if already plausibly foreseen in the application for the certificate.   |  |  |
|  | The National Agency will reserve a part of the available budget for this action. A certificate is not an automatic guarantee for funding.  |  |  |
|  | A Leonardo Mobility Certificate can be withdrawn in case of non compliance to the quality criteria set out in the application and in case of breach of financial and operational rules of the Leonardo da Vinci Programme.   |  |  |
| What are to die  | Operation to the large of the l |  |  |
| Who can benefit  | Organisations experienced in Leonardo da Vinci mobility.   |  |  |
| Who can apply PRIORITIES   | Beneficiaries of a successfully completed Leonardo da Vinci mobility project.  There are no European priorities for Leonardo da Vinci Mobility Certificates. Please verify with the relevant National Agency whether national priorities apply.  |  |  |

| Action                                   | LEONARDO DA VINCI Preparatory Visits   |  |  |
| Objectives and description of the action | The objective of the action is to help institutions eligible for the Leonardo da Vinci Programme wishing to establish a new Mobility project, Partnership project, Transfer of Innovation Project, Development of Innovation project, Thematic Network project or Accompanying Measure project to contact and meet suitable partner institutions and/or develop a workplan in order to prepare the project/partnership application.        |  |  |
|  | Any institution wishing to establish a new project in the Leonardo da Vinci actions concerned may apply for a grant to enable staff members to undertake a preparatory visit. The visit may take either of the following forms:  - a visit to a potential partner institution in another country participating in the Lifelong Learning Programme;  - participation in a partner-finding 'contact seminar' organised by a National Agency. |  |  |
|  | Details of the seminars are available on request from National Agencies.   |  |  |
|  | Preparatory visits allow potential partners to meet in order to:     define the aims, objectives and methodology of a future project;     define partner roles, responsibilities and tasks within a future project;     develop a work plan for a future project, including methods for monitoring, evaluation and dissemination;     complete the project/partnership application form.   |  |  |
| Who can benefit                          | Individuals working in an institution wishing to establish a Leonardo da Vinci project in Mobility, Partnership, Transfer of Innovation, Development of Innovation, Thematic Network or Accompanying Measure.  |  |  |
|  | Usually a grant is awarded to just one person per visit, only in exceptional cases two staff from the same institution can be awarded a grant to undertake a visit together. Only one visit per potential project/partnership will be funded. Applications for preparatory visits are not eligible once the corresponding project/partnership application has been submitted.  |  |  |
| Who can apply                            | Any institution wishing to establish a new Leonardo da Vinci project in Mobility, Partnership, Transfer of Innovation, Development of Innovation, Thematic Network or Accompanying Measure.  |  |  |
| PRIORITIES                               | There are no European priorities for LEONARDO DA VINCI Preparatory Visits. Please verify with the relevant National Agency whether national priorities apply.  |  |  |

# **Eligibility Criteria**

# **General eligibility rules:**

The general eligibility criteria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3. Participating countries: please refer to Part I of this Guide, section "Which countries participate in the Programme?"

| Specific eligibility rules:                         | Applications must be submitted by bodies which are legal entities and eligible to apply for a Leonardo da Vinci project in Mobility, Partnership, Transfer of Innovation, Development of Innovation, Thematic Network or Accompanying Measure.  As preparatory visit grants (contact seminars included) aim at supporting organisations to develop future projects/partnerships, the country of origin and the country of destination must be countries participating in the LLP although not necessarily Member States of the EU.  Nevertheless, applicants/beneficiaries of a preparatory visit grant should pay attention to the following requirement: at least one partner organisation of the future partnership/project application – that will be prepared as a result of the preparatory visit grant – has to be located in an EU Member State for the grant application relating to the partnership/project to be formally eligible.  Please verify with the relevant National Agency whether additional national requirements apply. |                |  |

| Programme                         | LIFELONG LEARNING   |  |  |
|-----------------------------------|---|--|--|
| Subprogramme                      | LEONARDO DA VINCI   |  |  |
| Action Category                   | MOBILITY  |  |  |
| Action                            | LEONARDO DA VINCI IVT (Initial Vocational Training)   |  |  |
| Objectives and description of the | The action aims at the support of transnational mobility of persons undergoing initial vocational education and training and is divided into two sub-groups:  |  |  |
| action                            | A. Mobility of apprentices B. Mobility of persons in school-based initial vocational training   |  |  |
|                                   | An Aprenticeship is defined as a vocational training scheme based on alternate learning in which the learning/training takes place at the workplace (enterprise) as well as in school. The enterprise plays an active role/has responsibility in the set-up of the training programme as well as in the decision if a person can leave on mobility; there is not necessarily a contractual link between apprentice and enterprise. Given the differences of initial vocational training schemes in the participating countries, the exact coverage of the two groups will be defined at national level and published on the NA web-site.  |  |  |
|                                   | The general objectives of this mobility action within the Leonardo da Vinci sectoral programme are:   |  |  |
|                                   | <ul> <li>To support participants in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development, employability and participation in the European Labour Market.</li> <li>To enhance the attractiveness of vocational education and training and mobility for individuals and to facilitate the mobility of working trainees.</li> </ul>  |  |  |
|                                   | A transnational mobility in initial vocational training consists in a <b>training placement</b> for a period of vocational training and/or work experience undertaken by an individual participant (apprentice, pupil, trainee, etc in IVT) in an enterprise or a training institution in another participating country. In case the training placement is done in a training institution, the link to the practical experience and to the training needs of the participant shall be clearly defined.  |  |  |
|                                   | Individual participants will receive their grant within a mobility project organised by a coordinating organisation. <b>Individuals cannot directly apply</b> for a grant to National Agencies.   |  |  |
|                                   | Within the project, <b>co-operation</b> will exists between the sending institution and the host organisations, such as training institutions, VET schools or enterprises. Their respective roles and involvement in the different steps for implementation of the mobility activities have to be clearly defined, especially in case Intermediary organisations are participating. Their quality can be assessed on the basis of past performance and the satisfaction of the beneficiary and participants in previous projects.   |  |  |
|                                   | In the case of <b>apprentices mobility</b> , good-quality intermediary bodies are very important to support and simplify participation of SME as sending or hosting organisation and to bridge the gap between the world of education and the world of enterprises. Competent intermediary bodies are all public or semi-public organisations and interest groups having the mission of supporting the business or training sector in their E&T activities; examples of such bodies are chambers of craft; chambers of commerce, business representation/federations, unions; labour offices.   |  |  |
|                                   | Applications are submitted to the National Agency of the sending country (country of the applicant organisation) and can only cover <b>outgoing mobility</b> , i.e. individual participants residing and/or enrolled in the country of application moving to another participating country.   |  |  |
|                                   | The beneficiary of the project grant, generally the coordinating institution, will have to ensure that the partners of this co-operation, including the intermediaries, meet the principles contained in the <b>Quality Commitment</b> (http://ec.europa.eu/education/leonardo-da-vinci/doc1027 en.htm):  |  |  |
|                                   | <ul> <li>Clear description of objectives, needs, expected learning outcomes, content and duration of the training period abroad</li> <li>The placement is an integral part of the vocational training course</li> </ul>   |  |  |
|                                   | <ul> <li>Clear match between the training needs of the individual beneficiary, his training curriculum, the qualification to be achieved and the content of the placement (traineeship)</li> <li>Individual, linguistic and cultural preparation of the individual beneficiaries is ensured</li> <li>Pedagogical monitoring of the individual beneficiaries is ensured (tutoring and mentoring in cooperation between sending and host organisation, follow-up of learning agreement)</li> <li>Validation of the competences and learning outcomes acquired by the individual beneficiary and assessment of the general outcome within the specific vocational training field (use of Europass Mobility on request, use of ECVET, when applicable)</li> </ul> |  |  |
|                                   | <ul> <li>Logistic support to individual beneficiary (travel, accommodation, host organisation)</li> <li>Dissemination activities are foreseen</li> </ul>  |  |  |
| Who can benefit                   | Trainees in initial vocational training (apprentices, pupils in vocational training, trainees except in higher education).  |  |  |
| Who can apply                     | <ul> <li>Institutions or organisations providing learning opportunities in the fields covered by the<br/>Leonardo da Vinci sectoral programme;</li> <li>Associations and representatives of those involved in vocational education and training,</li> </ul>   |  |  |

| Action                                   | LEONARDO DA VINCI PLM (People in the Labour Market)  |  |  |
| Objectives and description of the action | The action aims at the support of transnational mobility of workers, selfemployed or people available for employment (including graduates) undergoing a training period abroad in a vocational training context.   |  |  |
|  | <ul> <li>The general objectives of this mobility action within Leonardo da Vinci sectoral programme are:</li> <li>To support participants in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development, employability and participation in the European Labour Market.</li> <li>To enhance the attractiveness of vocational education and training and mobility for individuals and to facilitate the mobility of working trainees and to facilitate the mobility of working trainees.</li> </ul>   |  |  |
|  | A transnational mobility for People in the Labour Market consists in a <b>training placement</b> for a period of vocational training and/or work experience undertaken by an individual participant in an enterprise or a training institution in another participating country. In case the training placement is done in a training institution, the link to the practical experience and to the training needs of the participant shall be clearly defined.   |  |  |
|  | <b>Individual participants</b> will receive their grants within a mobility project organised by a coordinating organisation. They <b>cannot directly apply</b> for a grant to National Agencies.   |  |  |
|  | Within the project, <b>co-operation</b> will exists between the sending institution and the host organisations, such as training institutions, VET schools or enterprises.  Their respective roles and involvement in the different steps for implementation of the mobility activities have to be clearly defined, especially in case intermediary organisations are participating. Their quality can be assessed on the basis of past performance and the satisfaction of the beneficiary and participants in previous projects.   |  |  |
|  | Applications are submitted to the National Agency of the sending country (country of the applicant organisation) and can only cover <b>outgoing mobility</b> , i.e. individual participants residing and/or enrolled and/or employed in the country of application moving to another participating country.  |  |  |
|  | The beneficiary of the project grant, generally the coordinating institution, will have to ensure that the partners of this co-operation, including the intermediaries, meet the principles contained in the Quality Commitment (http://ec.europa.eu/education/leonardo-da-vinci/doc1027 en.htm):  Clear description of objectives, content and duration of the training period abroad Clear match between the training needs of the individual beneficiary reflected against his professional background and the content of the placement (traineeship) Individual, linguistic and cultural preparation of the individual beneficiaries is ensured Pedagogical monitoring of the individual beneficiaries is ensured (tutoring and mentoring in cooperation between sending and host organisation, follow-up of learning agreement) Validation of the competences acquired by the individual beneficiary and assessment of the general outcome within the specific vocational training field (use of Europass Mobility on request, use of ECVET, when applicable) Logistic support to individual beneficiary (travel, accommodation, host organisation) Dissemination activities are foreseen |  |  |
| Who can benefit                          | People in the labour market (workers, selfemployed or people available for employment (including graduates from vocational education and training and higher education) undergoing a training period abroad in a vocational training context).   |  |  |

| Action                                   | LEONARDO DA VINCI Partnerships   |
| Objectives and description of the action | A Leonardo da Vinci Partnership is a framework for small-scale cooperation activities between organisations working in the field of vocational education and training ("VET") which will be cooperating on themes of mutual interest to the participating organisations. Projects can focus more on the active participation of trainees, while others will concentrate on the cooperation between teachers, trainers or VET-professionals. The cooperation shall not only include VET schools or institutions but also shall also involve the world of work. World of work partners may include, for example: enterprises; VET providers associated with enterprises (e.g. providing work-based training, apprenticeships); sector representations, branches; professional associations; representatives of working life (e.g. chambers of commerce and trade organisations); and other organisations providing evidence of links to working life and employment (e.g. some local authorities). They can cooperate at national, regional or local level, but also at sector level, such as within VET-fields or economic sectors. |
|  | The partnership should include partners from at least 3 participating countries. Given that only full (not "silent", unfunded) partners have a legal obligation to implement the Partnership project, at least one full partner should represent the world of work. One of the partners must act as coordinator. It is strongly advised to indicate at application stage which of the partners volunteer to act as replacement coordinators, should the original coordinator be rejected in the selection.   |
|  | Partnership projects fill a gap between the two major decentralised Leonardo da Vinci actions, i.e. the mobility projects and the bigger transfer of innovation projects, as they allow for cooperation in VET beyond mobility activities without, however, demanding large scale cooperation involving big budgets as in the Transfer of Innovation. Partnerships could also be used to continue to cooperate on results achieved in a previous project or be a first step towards a mobility or transfer of innovation project. However, LdV partnerships should not be used to carry out pure mobility projects or to prepare a transfer of innovation project.   |
|  | Partnerships are an excellent way of enabling peer learning activities for the use of common tools as described in the Helsinki Communiqué, such as transparency, EQF, ECVET, quality assurance, excellence of skills, competences for key sectors.  |
|  | AIMS AND OBJECTIVES - TOPICS FOR CO-OPERATION  |
|  | Leonardo da Vinci Partnerships follow the objectives of the Leonardo da Vinci programme as set out in Article 15.1 of the Programme Decision, which reflect the general political goals of VET policy at European level. This includes the objectives linked to the Copenhagen process and its 2-year updates. The main priorities for VET as reviewed in the Bruges Communiqué in December 2010 set an excellent framework for Leonardo da Vinci partnerships.  |
|  | More specifically, LdV partnerships are differentiated from the partnership actions in the Comenius and Grundtvig programme on the basis of the content of the activities, which have to be clearly VET and world of work related.   |
|  | The following examples of topics which could be covered within a LdV partnership are based on the Bruges communiqué reflecting present priority topics in common VET policy:  • Development of guidance and advice on VET;  • Opening VET to flexible pathways and create better conditions for transition to working life;  • Reinforce or create closer links of VET with working life;  • Promoting the recognition of non-formal and informal learning;  • Responding to the needs of the labour market, particularly of SMEs, anticipation of skills needed in labour market;  • Improve the qualification of teachers and trainers;  |
|  | <ul> <li>Support the implementation of Quality assurance in VET;</li> <li>Cooperate in the area of transparency of VET systems (i.e. ECVET, EQF, Europass);</li> <li>Support the development of national qualifications frameworks in relation to EQF;</li> <li>Cooperate to test and apply common concepts developed at European level with the aim to achieve a spreading at the level of the actors "on the ground".</li> </ul>   |
| Who one has of                           | The LdV Partnership will produce an outcome or results which allow later dissemination and further application of the results of the cooperation. This can be descriptive or tangible, take the form of a common report, a conference, a CD, a tangible product as developed for / on behalf of / with the involvement of trainees, a training concept in a specific VET field,etc.  |
| Who can benefit                          | <ul> <li>Institutions or organisations providing learning opportunities in the fields covered by the Leonardo da Vinci sectoral programme;</li> <li>Associations and representatives of those involved in vocational education and training, including trainees', parents' and teachers' associations;</li> <li>Enterprises, social partners and other representatives of working life, including chambers of commerce and other trade organisations;</li> <li>Bodies providing guidance, counselling and information services relating to any aspect of lifelong learning;</li> </ul>   |

| Action                                   | LEONARDO DA VINCI Transfer of Innovation   |
| Objectives and description of the action | The aim of Leonardo da Vinci Multilateral Projects "Transfer of Innovation" is to improve the quality and attractiveness of Vocational Education and Training (VET) in the participating countries by transferring existing innovations to new legal, systemic, sector, linguistic, socio-cultural and geographic environments through working with transnational partners. Innovation transfer projects generate synergies by exploiting existing VET innovations (no "re-inventing the wheel").  |
|  | Proposals for an innovation transfer must clearly present the basis of the transfer and must demonstrate the benefit of the transfer: innovation regarding, for example, VET courses, tools, materials, methodologies, occupational referentials or standards, credit systems, experiences or policy or legislative lessons, can be transferred to other sectors and countries; the innovation that shall be transferred can be, for example five years old, as long as it has not been outstripped by another – newer – innovation.   |
|  | These existing innovations can be based on previous Leonardo da Vinci projects, or on any other national, European or international innovative projects, and can be transferred into vocational training systems and organisations at national, regional, local or sector level. Therefore proposals should clearly take into account the ownership rights on the previously developed innovations (intellectual property rights - IPR).   |
|  | Ideally, a "Transfer of Innovation" project should not only combine innovations from several countries for the transfer to one or several countries but also partners from those countries. Thus the project can also become a learning experience for those partner VET stakeholders from where the innovations come from. For a <a href="mailto:transfer">transfer</a> of innovation one does not necessarily need innovative organisations as partners but for its introduction in other countries and environments one will need partners in the national VET systems there with standing, reputation and international cooperation experience.  |
|  | <ul> <li>The proposal for an innovation transfer project should elaborate on how the following elements were prepared:</li> <li>Analysis of the needs of the target group/s (there can be a direct target group, for example teachers or trainers, and an indirect target group, for example pupils or apprentices);</li> <li>Identification of innovations that in principle are suitable and selection of those that will meet the needs of the target group in the best way;</li> <li>Analysis of the feasibility of their blending and of their transfer;</li> </ul>   |
|  | <ul> <li>The proposal should further explain how the project - if selected for funding - would implement the following steps:</li> <li>Blending the selected innovations and adapting them to the legal framework, training system (public, private, sector), language, culture and geography as well as to the needs of target group;</li> <li>Transferring them to, and testing them in the new environment;</li> <li>Integrating or even certifying the transferred innovations in European, national, regional, local or sector training systems and practices.</li> </ul>   |
|  | Although a "Transfer of Innovation" project is about identifying existing solutions to a given problem, their adaptation to other environments may need some development work. However, proposals for a transfer of innovation should plan only little time for development but largely sufficient time for adaptation, testing, fine-tuning and integration. In order to make sure that the solutions are really adapted to the direct and indirect target groups in the best way, they should be closely involved in the project work.   |

| Award criteria             | 1. Quality of the work programme   |
|                            | The objectives are clear, realistic and address a relevant issue; the methodology is appropriate to  |
|                            | achieving the objectives; the work programme defines and distributes tasks / activities among the  |
|                            | partners in such a way that the results will be achieved on time and to budget.  |
|                            | 2. Innovative character  |
|                            | The project will provide solutions to clearly identified needs of the target groups identified, by   |
|                            | offering innovative solutions as regards training and competence development. These solutions will   |
|                            | result from adapting and transferring innovative approaches which already exist in other countries   |
|                            | or sectors of the economy.  3. Quality of the Consortium   |
|                            | The consortium brings together all the skills and competences required to carry out the work   |
|                            | programme, and there is an appropriate distribution of tasks across the partners.  |
|                            | 4. European added value  |
|                            | The benefits and need for European cooperation are clearly demonstrated.   |
|                            | 5. The cost-benefit ratio  |
|                            | The grant application demonstrates value for money in terms of the activities planned relative to  |
|                            | the budget foreseen.   |
|                            | 6. Relevance   |
|                            | The grant application is clearly positioned in one of the priorities of the LLP General Call for   |
|                            | Proposals 2011-2013 – Strategic Priorities 2012. The results are relevant to the specific,   |
|                            | operational and broader objectives of the Programme.   |
|                            | 7. Impact  |
|                            | The impact on vocational training approaches and systems is likely to be significant.  |
|                            | 8. Quality of the valorisation plan (dissemination and exploitation of results)  |
|                            | The planned dissemination and exploitation activities will ensure optimal use of the results beyond  |
|                            | the participants in the project, during and beyond the lifetime of the project.  |

| Action                                   | LEONARDO DA VINCI Development of Innovation  |
| Objectives and description of the action | Leonardo da Vinci Multilateral Projects 'Development of Innovation' are transnational co-<br>operation projects that aim to improve the quality of training systems through the development<br>of innovative contents, methods and procedures within Vocational Education and Training (VET).<br>Innovation is a matter of doing new things or finding new ways of doing familiar things. For<br>Development of Innovation Projects it means that <b>something innovative is developed</b><br>(contents, methods, procedures etc.) as the end result of the project.   |
|  | Proposals for innovation development should respond to an innovation pressure (gaps in VET systems or processes) that several countries have in common and should lead to brand new solutions and therefore result in a clear benefit in VET of European scope.  |
|  | The teamwork of a variety of European partners will bundle different approaches, lead to crossfertilisation and creativity, and will facilitate the development of new solutions and know-how. Development of Innovation projects typically plan a lot of time for development but will also foresee enough time for testing. They will have to consider intellectual property rights (IPR) during the project so that there is an agreement amongst partners before the project has finished. An innovation development can come from any organisation that is innovative. Therefore Development of Innovation projects will rather involve specialist developers. Thus, these projects can be the vehicle for improving quality and for promoting innovation in vocational training. Both aims should be integrated in the proposal in such a way that tools, methods or concepts, and also concrete materials which are developed during the project can be used in, or adapted for, changing environments. |
|  | The principles for the implementation of Leonardo da Vinci Development of Innovation projects are given below:  • EU support is intended for the production of tangible materials, products, methods and approaches in the field of vocational training and guidance, and not for training activities as   |
|  | <ul> <li>such</li> <li>Proposals must put the innovative dimension of the project in context and in relation to the needs of the target groups or the problem to be solved</li> <li>The development of innovation may apply equally to institutional contexts and to formal, informal or non-formal practices, as well to initiatives promoted at the local, regional or sectoral level</li> <li>Maximum benefit must be drawn at European level from the results by making use of the expertise and experience of the various European bodies and/or other qualified</li> </ul>   |
|  | <ul> <li>organisations active in this field</li> <li>In order to make best use of the results and obtain feedback enabling the product, material, approach or method to be adapted and transferred, valorisation (= dissemination and exploitation of results) must be an integral part of the project's work programme</li> <li>In disseminating and exploiting the results of projects, the European dimension must be enhanced by making vocational training and guidance materials, products, methods and approaches available, where possible, in the languages of all partners.</li> </ul>   |
| Who can benefit                          | All those in vocational education and training, other than at tertiary level, as well as the institutions and organisations facilitating such education and training, such as:  • Institutions or organisations providing learning opportunities in the fields covered by the Leonardo da Vinci sectoral programme  • Associations and representatives of those involved in vocational education and training, including trainees', parents' and teachers' associations  • Enterprises, social partners and other representatives of working life, including chambers of commerce, other trade organisations and sectoral organisations  • Bodies providing guidance, counselling and information services relating to any aspect of lifelong learning   |
|  | <ul> <li>Bodies responsible for systems and policies concerning any aspect of lifelong learning vocational education and training at local, regional and national level</li> <li>Research centres and bodies concerned with lifelong learning issues</li> <li>Organisation at tertiary level (higher education institutions) can participate in the projects, but the results should not target those attending vocational education and training at tertiary level</li> <li>Non-profit organisations, voluntary bodies, NGOs</li> </ul>   |
|  | Note: This Action is open to partner organisation from countries not participating in the Lifelong Learning Programme on the following conditions:  • Neither the applicant nor the organisation responsible for project management / coordination can be a third country partner;  • Third country participation is an <b>additional option</b> in an otherwise normal, eligible application and consortium. | Action                                   | LEONARDO DA VINCI Networks   |
| Objectives and description of the action | The aims of Leonardo da Vinci Networks are to strengthen the link between the various 'actors' involved in vocational training, to improve the quality, European dimension and visibility of activities or issues of common interest in the field of vocational and educational training.  |
|  | <ul> <li>In particular the Leonardo da Vinci Networks aim at:</li> <li>Assembling, distilling and building on European expertise and innovatory approaches</li> <li>Improving the analysis and anticipation of skill requirements</li> <li>Disseminating the network outputs and project results throughout the Union in the appropriate circles.</li> </ul>   |
|  | <ul> <li>The objectives of Leonardo da Vinci Networks are:</li> <li>Projects under this action should assist cooperation between VET actors, enterprises, economic sectors, social partners and training organisations on a sectoral basis</li> <li>To identify the trends and skills requirements in this area and improve the anticipated benefit of vocational training programmes</li> <li>Publish the results of work undertaken by such transnational networks through the relevant channels so as to promote greater innovation and transnational co-operation in vocational training.</li> </ul>   |
|  | <ul> <li>The principles for the implementation of Leonardo da Vinci Networks are:</li> <li>Carrying out a work programme on a given subject (this principle implies that the EU financial support is granted for the implementation of the work programme and related activities rather than for the existence of the network per se)</li> <li>Ensuring that the activities of the network are not confined to their contractual period only (from the outset each network should foresee a strategy to allow its activities to be continued beyond the period financed by the EU)</li> <li>The proposals should also include the provision, based on the initial results, for a widening of the network, accompanied by a plan for canvassing new potential partners.</li> </ul>  |
|  | The partnership must be multiplayer, i.e. involve a variety of players capable of contributing to the proposal's objectives. Its members may include local authorities, chambers of commerce, trade organisations for employers and employees (social partners), companies, including small and medium-sized enterprises (SMEs), non-governmental organisations (NGOs) and research and vocational training centres, including universities.   |
|  | Inclusion of political decision-makers, such as local and regional authorities, will ensure the durability of the partnership.  This action is not designed exclusively for the establishment of new networks. Members of existing networks (in the field of VET) may wish to form new networks to work in complementary areas or to use their combined expertise in new areas.  |
| Who can benefit                          | All those in vocational education and training, other than at tertiary level, as well as the institutions and organisations facilitating such education and training, such as:  • Institutions or organisations providing learning opportunities in the fields covered by the Leonardo da Vinci sectoral programme;  • Associations and representatives of those involved in vocational education and training, including trainees', parents' and teachers' associations;  • Enterprises, social partners and other representatives of working life, including chambers of commerce and other trade organisations;  • Bodies providing guidance, counselling and information services relating to any aspect of lifelong learning;  • Bodies responsible for systems and policies concerning any aspect of lifelong learning vocational education and training at local, regional and national level;  • Research centres and bodies concerned with lifelong learning issues;  • Organisation at tertiary level (higher education institutions) can participate in the projects, but the results should not target those attending vocational education and training at tertiary level  • Non-profit organisations, voluntary bodies, NGOs |
|  | <ul> <li>Note: This Action is open to partner organisation from countries not participating in the Lifelong Learning Programme on the following conditions:         <ul> <li>Neither the applicant nor the organisation responsible for project management / coordination can be a third country partner;</li> <li>Third country participation is an additional option in an otherwise normal, eligible application and consortium.</li> </ul> </li> <li>See Part I of this Guide (section 1C) and – for the detailed administrative arrangements on how such organisations can participate – the website of the Executive Agency.</li> </ul>  |

| Objectives and description of the action | The objective of the action is to help any organisation wishing to establish a Grundtvig Learning Partnership, Senior Volunteering Project, Multilateral Cooperation Project, Network or Accompanying measures project to get to know suitable partner institutions and develop a work plan in order to prepare the project/partnership/network application form.  Any organisation wishing to establish a cooperative activity of this kind may apply for a grant to enable staff members to undertake a preparatory visit. The visit may take either of the following forms:  - a visit to a partner institution in another country participating in the Lifelong Learning Programme;  - participation in a partner-finding 'contact seminar' organised by a National Agency.  Details of the seminars are available on request from National Agencies.  Preparatory visits allow potential partners to meet in order to:  • define the aims, objectives and methodology of a future Partnership, Project or Network;  • define roles, responsibilities and tasks among the partners which will be developing the Partnership, Project or Network;  • develop a work plan for developing the envisaged Partnership, Project or Network, including methods for monitoring, evaluation and dissemination;  • complete the appropriate joint application form   |  |  |
| Who can benefit                          | Individuals working in an institution/organisation wishing to establish a Grundtvig Learning Partnership, Senior Volunteering Project, Multilateral Cooperation Project, Network or Accompanying measures project.  Usually a grant is awarded to just one person per visit, but in exceptional cases two staff from the same institution can be awarded a grant to undertake a visit together, provided that the division of responsibility between them justifies this. Only one visit per potential project/partnership will be funded. Applications for preparatory visits are not eligible once the corresponding project/partnership application has been submitted.   |  |  |

In this way, participants are encouraged to gain a broader understanding of adult learning in Europe and, depending on the purpose of the visit, to improve their practical teaching / coaching / counselling / management skills and/or support the work of the host organisation by providing expertise in the area of teaching, management or other related activities.  The visits may be carried out singly or, where this is appropriate for the visit concerned, in small groups (in the latter case, a separate application must be submitted for each participant). They may be uni-directional or carried out as part of an exchange between organisations. Where appropriate, one grant may cover visits to several organisations.  Note: i.) While visits of this kind may, as a desirable side-effect, give rise to future cooperation between the participant's organisation and the organisation(s) visited abroad, applications where this is the primary purpose should be submitted under the Grundtvig action "Preparatory Visits" – see the relevant page in this Guide. ii.) Grants to attend formal in-service training courses are available under the Grundtvig action "In-Service Training for Adult Education Staff" – see the relevant page in this Guide. iii.) Please note that long duration form of mobility (from 13 full weeks onwards) will normally be eligible under the Grundtvig action "Assistantships" – see the relevant page in this Guide.  The visit activities for which grants are awarded must relate to the candidate's professional activities in any aspect of adult learning. This may, for example, have to do with:  • Carrying out a teaching assignment at an adult education organisation;  • Studying aspects of adult education/learning in the host country, such as: the content and delivery of adult educating (course content and |

| Action                        | GRUNDTVIG Assistantships (ASS)  |  |  |
| Objectives and                | This Action enables present or future staff involved in adult education - whether formal, non-  |  |  |
| description of the action     | formal or informal - to spend a period from 13 full weeks (see below) as a Grundtvig Assistant at an adult education organisation in another European country participating in the Lifelong Learning Programme (LLP), other than that in which they normally live or work.  |  |  |
|                               | The objective is to give participants the opportunity to gain a better understanding of the European dimension to adult learning, to enhance their knowledge of foreign languages, other European countries and their adult education systems and to improve their professional and intercultural competences.  |  |  |
|                               | The tasks to which an Assistant may contribute include:  • assisting in facilitating learning or with regard to some aspect of managing adult education  • providing support for adults with special educational needs  • providing information on the Assistant's country of origin and assisting in the teaching of its language  • introducing or reinforcing the European dimension in the host institution |  |  |
|                               | • initiating, developing and assisting in the implementation of projects.   |  |  |
|                               | Assistants should be fully integrated into the host organisation's life. As the Assistantships are open to all adult education staff, the level of experience and seniority of the participants varies considerably. Depending on their specific profile, the Assistant may either:  • •play a mainly ancillary role at the host organisation, assisting in various teaching or management activities;          |  |  |
|                               | • take full responsibility for one or more courses or a particular aspect of management at the host organisation (such cases are known as Expert Assistantships).   |  |  |
|                               | Prior to submitting their application for an Assistantship, applicants must have identified the host organisation at which they wish to carry out the Assistantship. Applications must contain confirmation from this organisation that it is willing to receive the Assistant.   |  |  |
|                               | Organisations wishing to host an Assistant in future years, are invited to inform the National Agency in the country where they are located.  |  |  |
|                               | Assistants may carry out activities at several host organisations, either to give variety to their work or to meet particular needs of neighbouring adult learning organisations in the area.   |  |  |
| Who can benefit               | Assistants are selected by the National Agencies in their home country. Grundtvig Assistantship grants are not normally awarded more than once to the same person within a period of 3 years. #### **EVALUATION AND SELECTION PROCEDURES**

Please consult Part I of this Guide, chapter WHAT IS THE LIFECYCLE OF A PROJECT for further information about the evaluation and selection procedures

### **Eligibility Criteria**

### General eligibility rules:

The general eligibility criteria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3. Participating countries: please refer to Part I of this Guide, section "Which countries participate in the Programme?"

### Specific eligibility

- 1) Individual applicants must be either:
- a national of a country participating in the Lifelong Learning Programme;
- a national of other countries enrolled in regular courses in schools, institutions of higher education or vocational training, or in adult learning organisations in a participating country, employed or living in a participating country, under the conditions fixed by each of the participating countries, taking into account the nature of the programme (please refer to relevant National Agency website).
- 2) Individual applicants must be one of the following:
- Persons at any stage in their career who are already working on a part-time or full-time basis in any part of the adult education sector (formal, non-formal or informal), including volunteer staff as well as those who are formally employed. This includes notably:
  - Teachers/trainers in adult education in the broadest sense (formal, non-formal and informal)
  - Heads and managerial / administrative staff of organisations directly or indirectly involved in providing adult learning opportunities
  - Staff involved in intercultural adult education, or working with migrant groups, travellers, occupational travellers and ethnic communities
  - o Staff working with adults with special learning needs
  - o Staff such as mediators and street educators working with adults at risk
  - Counsellors or career advisors
  - Staff working in local or regional authorities dealing with adult education, including the inspectorate
- Persons involved in the training of adult education staff
- Persons who can demonstrate a clear intention of working in adult education but who are currently in some other labour market situation (work in another field, retirement, absence from professional life due to family responsibilities, unemployment etc.), whether or not they have worked in adult education before.
- Persons who have completed a qualification leading to a career in adult education and intend to start working in adult education.
- Students who have completed at least two years of study leading to a degree or equivalent qualification in adult education / andragogy or who are enrolled in masters level studies in this
- Other education staff at the discretion of national authorities.

In the case of persons (re-)entering adult education from another labour market situation, NA may give precedence to applicants who are able to demonstrate that their (re-)commencement of work in adult education is imminent.

3)The organisation where the Assistantship is to be carried out must be located in a country participating in the LLP different from the one in which the Assistant is living or working. Applications must contain confirmation from the host organisation that it is willing to receive the Assistant (letter of acceptance).

4)The sending and/or host country must be an EU Member State.

| Action                     | GRUNDTVIG In-Service Training for Adult Education Staff (IST)   |  |
| Objectives and             | The objective of this Action is to help improve the quality of lifelong learning by enabling persons  |  |
| description of the action  | working in the field of adult learning, in the broadest sense, or who are engaged in the in-service training of such persons, to undertake a training course in a country other than that in which they normally live or work. In this way, participants are encouraged to improve their practical teaching / coaching / counselling / management skills and to gain a broader understanding of adult learning in Europe. The course concerned must have a strong European focus in terms of the profile of trainers and participants.                  |  |
|                            | Note: Grants for more informal training such as a placement or observation period in an adult education organisation or a public or non-governmental organisation involved in adult education (job-shadowing), are available under the Grundtvig actio "Visits and Exchanges for Adult Education Staff" (see the relevant page in this Guide).  |  |
|                            | The training for which grants are awarded must relate to the candidate's professional activities in any aspect of adult learning, whether formal, non-formal or informal. This may have to do with:  • The content and delivery of adult education, in particular course content and teaching methodology;  |  |
|                            | The accessibility of learning opportunities for adults, in particular for disadvantaged social groups;  The accessibility of learning opportunities for adults, in particular for disadvantaged social groups;  |  |
|                            | <ul> <li>The management of adult learning, including governance at local and regional level, administration, quality assurance, support services such as counselling and guidance, developing community-based schemes for adult learning etc.;</li> <li>The system/policy-related aspects of adult education including all types of strategic issues, funding models, development of cooperation between providers in the context of learning regions, indicators and benchmarking etc.</li> </ul>  |  |
|                            | Grants will only be awarded for participation in training which is suitable for achieving the applicant's demonstrated training objectives, which complies with the necessary quality criteria and which presents an added value through the European dimension of the proposed course compared with training in the applicant's home country.  |  |
|                            | An on-line database of training activities, known as the Comenius - Grundtvig Training Database, is available to help applicants identify training which is eligible for funding under this Action and which best meets their training needs: <a href="http://ec.europa.eu/education/trainingdatabase/">http://ec.europa.eu/education/trainingdatabase/</a> . However, applicants may also choose training which is not listed in the database, provided that it meets the necessary criteria. This will be determined by the relevant National Agency. |  |
| Who can benefit            | At the website for the Comenius - Grundtvig Training Database indicated above, organisations wishing to register a course in the database will find details on how to do so. | Action                                   | GRUNDTVIG Workshops  |  |
| Objectives and description of the action | The objective of this Action is to enable adult learners to participate in Workshops (learning events and seminars) taking place in another European country participating in the LLP. This is a new form of mobility offered to adult learners in the Lifelong Learning / Grundtvig programme.  Workshops bring together individual or small groups of learners from several countries for  |  |
|  | a multinational learning experience relevant for their personal development and learning needs, in which learners are also encouraged to share their competences and insights actively with others. It is not the purpose of Workshops to provide further vocational training.  Each Workshop will be composed of a minimum of 10 and a maximum of 20 learners,  |  |
|  | funded by Grundtvig, from countries other than the country in which the Workshop takes place. No more than 1/3 of the participants should originate from the same country. Learners should come from at least 3 different countries other than the country where the Workshop takes place. Nationals of the country where the Workshop takes place are eligible to participate in these Workshops but cannot be funded from Grundtvig and should not account for more than 1/3 of the total participants in the Workshop.  |  |
|  | Workshops may be organised on topics relevant to the Grundtvig Programme objectives. It is anticipated that the following topics may be among those frequently chosen by Workshop organisers:  |  |
|  | <ul> <li>topics such as eco-friendly behaviour, numeracy, literacy, health education, active aging, inter-generational learning, digital competences, family learning, intergration of migrants, gender equality, visual arts, music, creativity, mathematics, science, and other topics which are not too heavily dependent on foreign language competence</li> <li>language-learning, particularly for people wishing to build on basic competence (or improve such competence in specialised areas) in the language of the country where the Workshop is organised, notably where this is a less widely used and less taught language</li> </ul>  |  |
|  | <ul> <li>discussion groups on issues of common European interest, with a view to stimulating greater interest in European matters among the adult population</li> <li>active citizenship and intercultural dialogue.</li> </ul>  |  |
|  | Applications relating to teacher training activities or training courses for adult education staff will be ineligible. Similarly, Workshops which consist primarily of leisure or tourism activities in which the necessary learning dimension is insufficiently emphasized will be considered ineligible.  A catalogue of approved Workshops for the period between 01.09.2012 to 31.08.2013 will be available to help potential learners identify a learning opportunity of interest to them. However, Workshop organisers will be expected to advertise their Workshop widely, once it has been approved, in order to ensure an adequate number of learners. The Action is open to any institution wishing to organise activities for adult learners. |  |
|  | Applications open to arganise a Workshop must be submitted to the National Agency in the country of the Workshop organiser, and the Workshop itself must take place in that country.   |  |
|  | The Grundtvig grant will relate both to the organisation of the Workshop itself and to the financing of the learners' participation, including their travel and subsistence.  The Workshop organiser will organise the learnser's stay and cover their travel and subsistence costs. Local adult education organisations may assist learners in making their applications.  The Workshop organiser selects the candidates according to the guidelines defined in its   |  |
|  | application to the NA. Among the learners, particular attention is given to including people from disadvantaged, vulnerable social groups and in marginal contexts, in particular those who have left education without basic qualifications, in order to give these social groups alternative opportunities to access adult education.  |  |
| Who can benefit                          | Workshop organiser: any organisation interested in providing adult learning opportunities of this kind.  Learners: any adult person and particularly those of disadvantaged groups from countries participating in the programme, subject to the conditions set out in "Specific eligibility criteria" below, selected by an approved Workshop organiser.  |  |
| Who can apply                            | Workshop organiser: any organisation which is a legal entity and can demonstrate a capability to organise such a Workshop effectively.  Learners: all adult persons and particularly those of disadvantaged groups from countries participating in the programme, whether or not they are already involved in adult learning, subject to the conditions set out in "Specific eligibility criteria" below.  |  |
| PRIORITIES                               | Please verify with the relevant National Agency if national priorities apply. There are no European priorities for Grundtvig Workshops.  |  |
| HOW TO APPLY                             | Decentralised action, application to be sent by the Workshop organiser to the relevant National Agency.  Adult learners wishing to participate in a Workshop apply (either individually or in small  |  |
|  | groups) directly to the Workshop organiser.  |  |

| Specific eligibility rules:   | Workshops must comply with the 'Objectives and description of the action' above. Applications to organise a Workshop must be submitted by bodies which are legal entities.  Applications for Workshops relating to further vocational training, and in particular those addressing teachers, trainers, adult education staff as the main target group, will be declared ineligible.  Please verify with the relevant National Agency whether additional requirements apply.  Individual adult learners applying to participate in a Workshop must be aged 18 or above and either:  - a national of a country participating in the Lifelong Learning Programme;  - a national of other countries enrolled in regular courses in schools, institutions of higher education or vocational training, or in adult learning organisations in a participating country, or employed or living in a participating country, under the conditions fixed by each of the participating countries, taking into account the nature of the programme (please refer to relevant National Agency website).  Application Procedure for adult learners wishing to participate in a Workshop: the Workshop organiser will provide candidate learners with a learner application form. Applications should be submitted directly to the Workshop organiser, in accordance with the deadline specified by the organiser, Local adult education organisations may assist learners in making their applications.  Nationals/residents from the country where the Workshop is organised can participate but are not eligible for funding. | Award criteria  | 1. Quality and relevance of the Workshop  |  |
|   | The Workshop's objectives are clear and realistic and the subject is relevant for a Grundtvig Workshop. The objectives are therefore relevant to the operational objectives of the Grundtvig programme. The methodology is appropriate for achieving the objectives. The pedagogical and didactical approach is clearly described. The Workshop will provide a stimulating <b>learning</b> experience and an added value in terms of learning opportunities, development of key competences, skills development, access to information, etc. for the participating learners, in particular those of disadvantaged groups. <b>2. Quality of the organisation of the project</b> The tasks are clearly defined. The work programme is appropriate for organising a good quality Workshop within the time-frame envisaged. The logistics of the Workshop are   |  |
|   | clear and appropriate to the target group (including as regards the arrangements for handling the travel and accommodation of participants and the hosting of participants with specific needs).  |  |

| The possible need of cultural and/or linguistic preparation needs to be taken into account   |   |  |

| envisaged are relevant to the Grundtvig Programs potential impact on the <b>learning</b> experience of th concerned. The European added value and possible personal development and spin-offs are indicated. | The benefits of organising a European Workshop are clear and well defined. The results envisaged are relevant to the Grundtvig Programme and will have a demonstrable potential impact on the <b>learning</b> experience of the participants in the subject area concerned. The European added value and possible additional benefits contributing to personal development and spin-offs are indicated. The potential for repeating the Workshop in future (sustainability), if successful, is convincingly demonstrated. |  |
| 4. Quality of the communication plan   |   |  |
|  | The communication plan for advertising and publicising the Workshop is well defined and ensures optimal use of European funds to organise and recruit participants.   |  |

| Objectives and description of the action | GRUNDTVIG Learning Partnerships  The Grundtvig Learning Partnership is a framework for practical co-operation activities between organisations working in the field of adult learning in the broadest sense - formal, non-formal or informal. Compared with the generally larger-scale Grundtvig multilateral co-operation projects, which are more 'product' - or outcome-oriented, the partnerships focus more on process, and aim to broaden in particular the participation of smaller organisations wishing to include European co-operation in their education activities.  |
|  | In a Grundtvig Learning Partnership trainers and learners from at least three participating countries work together on one or more topics of common interest to the co-operating organisations. This exchange of experiences, practices and methods contributes to an increased awareness of the varied European cultural, social and economic scene, and to a better understanding of areas of common interest in the area of adult learning.  |
|  | One of the participating organisations must act as coordinator. It is strongly advised to indicate at application stage which partners volunteer to act as replacement coordinators, should the original coordinator be rejected in the selection procedure.  |
|  | The participating organisations are encouraged to monitor and evaluate their transnational work and to interconnect it with the initiatives of their local community. They are also encouraged to cooperate with organisations and authorities at the national level, to ensure a sound basis for their ideas and activities and open up channels for dissemination. This will maximise the value of the transnational exchange, promote the circulation of good practice, and thus ensure the wider impact of results.   |
|  | The following activities may be supported:  • Partner meetings and seminars between all institutions involved in the Partnership  • Exchanges of staff and adult learners involved in project activities  • Exchanges of experience and good practice, by all appropriate means and in particular using information and communication technology (e.g. websites, e-mail, video-conferencing)  • Making of technical objects, drawings and arts objects related to the project  • Fieldwork, project research, etc.  |
|  | <ul> <li>Preparation of performances (e.g. theatre plays, musicals, etc.)</li> <li>Linguistic preparation for persons involved in the Partnership to ensure they possess the necessary competence in the working language(s) of the partnership</li> <li>Co-operation with other projects in related subject areas (in particular Partnerships, projects and networks supported by Grundtvig) and sharing experience with other institutions in the region, etc., including mobility to relevant events organised by these</li> <li>Self-evaluation activities</li> <li>Organisation of exhibitions, production and dissemination of information material or</li> </ul> |
|  | documentation of the co-operation activities  • Dissemination of project experience and outcomes  |
|  | In Grundtvig Learning Partnerships focusing on learner participation, learners should be actively involved in the project and their mobility should be encouraged as much as possible. Partnerships in the most mobility-intensive category, i.e. those with at least 24 "mobilities", must involve mobility for a minimum of 16 different adult learners.  |
|  | Learning Partnerships focusing on management of adult education and/or teaching methods provide teachers, trainers and other adult education staff with the opportunity to exchange experience and information, to develop together methods and approaches which meet their needs, and to test and put into practice new organisational and pedagogical approaches.   |
|  | In all cases, projects can involve co-operation with bodies from the local community, such as local authorities, social services, associations and enterprises.   |
|  | Among the learners, particular attention is given to including people from disadvantaged social groups where possible.  |
| Who can benefit                          | Staff and learners of participating institutions and organisations as well as the local community.  |
| Who can apply                            | All kinds of institutions and organisations working in adult learning, whether formal, non-formal or informal.  |
| PRIORITIES                               | Please verify with the relevant National Agency whether national priorities apply. There are no European priorities for GRUNDTVIG Learning Partnerships.  |

| Action                                   | GRUNDTVIG Senior Volunteering Projects   |
| Objectives and description of the action | Grundtvig Senior Volunteering Projects support bilateral partnerships and exchanges of senior volunteers between local organisations located in two countries participating in the Lifelong Learning Programme (LLP).  The Lifelong Learning Programme aims to offer various kinds of educational opportunities to people of all ages, in order to facilitate formal, non-formal or informal learning. Volunteering is increasingly recognised as a very valuable informal learning experience, for people of all ages. In particular, it has been recognised as a way of offering new learning opportunities to senior citizens in Europe, promoting the process of active ageing and emphasising the contribution of seniors to our societies. Indeed, senior citizens are a rich source of wisdom and experience from which society should derive far greater benefit than has usually been the case in the past. This Action therefore offers a new form of mobility to European senior citizens and will allow them to learn, to share knowledge and experience in a European country other than their own.  The term "volunteering" refers to all forms of voluntary activity, whether formal or informal. It is undertaken of a person's own free-will, choice and motivation, and is without concern for financial gain. It benefits the individual volunteer, communities and society as a whole. It is also a vehicle for individuals and associations to address human, social or environmental needs and concerns, and is often carried out in support of a non-profit organisation or community-based initiative. Thus voluntary activities add value to society, but do not replace professional, paid |
|  | employees. This form of mobility also fosters collaboration between the organisations which will send and host volunteers. It should allow new types of organisations to join the Grundtvig programme, enrich their work, through the exchange of good practice, and create sustainable European collaboration between them.   |
|  | <ol> <li>The Action pursues the following interlinked, equally important, objectives:</li> <li>To enable senior citizens to volunteer in another European country for any kind of non-profit activity, as a form of informal (and mutual) learning activity (learning / sharing knowledge).</li> <li>To create lasting cooperation between the host and sending organisations around a specific topic or target group, and thanks to the exchange of volunteers.</li> </ol>  |
|  | <ul> <li>Expected outputs: <ul> <li>For the volunteers:</li> <li>1) increase of personal, linguistic, social and intercultural skills and competences,</li> <li>2) contribution to the development and implementation of non-profit activities, and beyond this, contribute to the community as an active citizen,</li> <li>3) acquisition / development / transmission of specific task-related skills (the learning and competence development outcomes of the mobility period for the volunteers will be given appropriate recognition by the participating organisations, i.e. validation of informal learning);</li> <li>For the sending and hosting organisations and the local communities in which the volunteers spend their mobility period abroad:</li> <li>1) exchange and mutual acquisition of experience, knowledge and good practice,</li> <li>2) development of European collaboration around a particular theme,</li> <li>3) intensified European outlook.</li> </ul> </li> </ul>  |
|  | Bilateral and reciprocal cooperation: Projects should involve two organisations, i.e. one from each of the two LLP countries participating in the project. One of these countries must be an EU Member State. Each organisation will be expected to send 2-6 volunteers and to host 2-6 volunteers during the grant period. 2 volunteers are regarded as an absolute minimum. Organisations may send/receive more than 6 volunteers, but this will not lead to an increase in Grundtvig funding. Volunteers may move in a group or individually. If, after the two-year funding period is over, a further grant is awarded to the Project to continue the exchange, the individual volunteers involved must be different (each individual person can only participate as a volunteer once over a period of three years). Sending and hosting may take place at the same time but does not necessarily have to do so.   |
|  | Profile of volunteers: The action is open to all adult citizens aged 50 or above, subject to the conditions set out in the Specific Eligibility Criteria below. Particular emphasis will be given to encouraging the participation of volunteers from socially disadvantaged groups and ethnic minorities, thereby helping to strengthen their integration in Europe and to combat racism and xenophobia. Equal participation of both genders should be encouraged.  It is expected that in many cases volunteers will be experienced local volunteers, and this will enhance the exchange of experiences between the host and sending organisations. However, this is not compulsory, and volunteers may also be people wishing to volunteer for the first time. Profile of sending and hosting organisations and of the volunteering activity  Any organisation may send and host volunteers, provided that it can show that it has the necessary capacity to do so in an effective manner. It should, however, be noted that:  - the activities in which the volunteers will be involved must be non-profit making and should provide real learning opportunities - whether formal, non-formal or (most usually) informal -   |

for the volunteers. The volunteers should not only observe but also participate actively in the partners' activities. the sending and hosting organisations that are the project partners are expected to build a lasting cooperation around a specific theme / activity / target group, through the exchange of volunteers. They should therefore have similar or complementary profiles. For the same reason, the volunteers should be sent by and hosted in the organisations which are the partners in the project. Duration of the activity: The volunteering activity in the other country is carried out in one continuous period of 3-8 weeks (i.e. minimum 21 days, which can include travel), not including the necessary preparation and debriefing phases. 3 weeks are an absolute minimum. The volunteering period may extend beyond 8 weeks, but this will not lead to an increase in the Grundtvig funding. Both the volunteering activities as such and the preparatory and debriefing activities, should be clearly described in the application. Further information Additional information and documentary resources for project partner organisations and volunteers are available on the National Agency's website and on the LLP / Grundtvig website on ec.europa.eu. Who can benefit All adult citizens aged 50 and above, subject to the conditions set out in the Specific Eligibility Criteria below. See also "Profile of volunteers" above. Hosting and sending organisations can be any legal entity, provided they offer non-profit making tasks to the volunteers and place this exchange of volunteers within the framework of a European cooperation process. Who can apply • Hosting and sending organisations: any organisation, as long as it is a legal entity and the volunteering activities are non-profit making. Volunteers: adult citizens aged 50 or above, whether or not they are already involved in adult education, can apply to the organisations participating in a Grundtvig Senior Volunteering Project to become a volunteer, subject to the conditions set out in the Specific Eligibility Criteria below. **PRIORITIES** Please verify with the relevant National Agency whether national priorities apply. | Action                                   | GRUNDTVIG Multilateral Projects  |
| Objectives and description of the action | Grundtvig Multilateral Projects are undertaken by institutions/organisations from different participating countries working together, pooling knowledge and experience, in order to achieve concrete and innovative results/products, like courses aimed at enhancing the quality of the provision, with indisputable European value. In many cases, this will involve piloting experiences in strategic areas and producing teaching products of high quality. These projects also seek to strengthen the European dimension in the field of adult learning.  |
|  | Within the priorities announced in the General Call for Proposals, the following activities may be supported:  • Improving the content and delivery of adult education, e.g.:  • the production, testing, comparative appraisal/dissemination of innovative curricula, methodologies and modules for adult learners;  • the development of Grundtvig training courses to improve the availability and quality of European training courses available to adult education teachers, managers or other adult education staff. Projects of this kind will have particular priority (see * below);  • innovative initiatives for the initial or further training of adult educators;  • Improving adult education at a system/policy level, e.g.:  • comparative analyses of policy initiatives for the adult education field;  • development of qualitative and statistical indicators, tools and databases of good practice in the field of formal, non-formal or informal adult learning;  • developing/disseminating innovative funding models for adult education;  • organising awareness-raising activities to promote lifelong learning (such as information campaigns);  • Improving the accessibility of learning opportunities for adults, e.g.:  • developing/disseminating strategies to stimulate demand for learning among adults reluctant to engage in lifelong learning;  • developing the lifelong learning dimension of educational establishments in the formal sector, such as higher education institutions and secondary schools;  • practical application and testing of methods for valuing knowledge and competencies acquired through informal and non-formal learning;  • promoting the development of multi-purpose learning centres and regional networks of learning providers;  • developing innovative guidance and counselling tools and methods;  • promoting interaction between formal and non-formal adult education and workplace-based general learning;  • Improving the management of adult education, e.g.:  • measures addressing the non-teaching staff of adult education institutio |
|  | Projects are encouraged to involve adult learners in their activities, and to take learners' needs and experiences into account. To this end, learners may take part in project meetings and all other appropriate events and activities within the project.  All projects must include plans for the evaluation and dissemination of project results.  * Note: Even where the development of Grundtvig Training Courses is not the primary focus of the project, applicants are strongly encouraged to include the organisation of such courses in their proposal wherever appropriate as a means of disseminating the results of the project actively to adult education teachers, managers or other adult education staff. The costs of organising such courses can be offset through the award of Grundtvig In-Service Training grants to the participants, provided the courses are approved for this purpose by the relevant National Agencies.  |

|                          | 2. Quality of the Work Programme   |
|                          | The organisation of the work is clear and appropriate to achieving the objectives; the work  |
|                          | programme defines and distributes tasks / activities among the partners in such a way that the   |
|                          | results will be achieved on time and to budget. The work programme includes specific measures  |
|                          | for evaluation of processes and deliverables.  |
|                          | 3. Innovative Character  |
|                          | The project will provide innovative solutions to clearly identified needs for clearly identified target  |
|                          | groups. It will achieve this either by adapting and transferring innovative approaches which   |
|                          | already exist in other countries or sectors, or by developing a brand new solution not yet   |
|                          | available in any of the countries participating in the Lifelong Learning Programme.  |
|                          | 4. Quality of the Consortium   |
|                          |  |

The consortium includes all the skills, recognised expertise and competences required to carry out all aspects of the work programme, and there is an appropriate distribution of tasks across the partners.

### 5. European Added Value

The benefits of and need for European cooperation (as opposed to national, regional or local approaches) are clearly demonstrated.

### **6. The Cost-Benefit Ratio**

The grant application demonstrates value for money in terms of the activities planned relative to the budget foreseen.

### 7. Impact

The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the activities are likely to be significant.

### 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results)

The planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project.

### 9. Where applicable: Participation of organisations from third countries

Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money

| Action                                   | GRUNDTVIG Multilateral Networks   |
| Objectives and description of the action | The aims of Grundtvig Networks are to strengthen the link between the various 'actors' involved in adult education in the broadest sense, to improve the quality, European dimension and visibility of activities or issues of common interest in the field of adult learning and to help make lifelong learning opportunities more widely known and available to citizens. Grundtvig Networks are large-scale networks providing a forum or a common platform for discussion and exchange of information on key issues, policy shaping and/or research in the area of adult learning.  |
|  | Each Grundtvig Network addresses one particular thematic area, sector or set of key issues chosen from the broad field of adult learning as a whole. Priorities are mentioned in the LLP General Call for Proposals 2011-2013 – Strategic Priorities 2012. Within its specific area of work, each network should seek to:   |
|  | <ul> <li>Further the debate on important aspects of policy and practice</li> <li>Provide an overview of a field (through comparative studies and analyses) within a European context</li> <li>Consider the various definitions used in different countries in terms of content and methodology, thereby contributing to the construction of a shared terminology at European level in the key areas of adult learning</li> <li>Identify present, emergent and future needs, and in particular pinpoint aspects where European co-operation could be especially beneficial</li> <li>Promote the dissemination of findings and recommendations and their implementation in relevant fields</li> <li>Make a major contribution to the dissemination of good practice available at national or European level.</li> </ul>                                     |
|  | In overall terms, each Grundtvig Network should therefore perform three functions:  |
|  | <ol> <li>It should provide a common platform and 'reference point' for discussion and exchange of information on key issues, policy shaping and research in the specific area of adult learning addressed</li> <li>It should actively assist in the networking of Grundtvig projects on subjects of common interest with the aim of promoting European co-operation and innovation</li> <li>It should disseminate results, insights and best practice derived from former Grundtvig projects and other initiatives conducted at the European, national or regional level in the chosen thematic area.</li> <li>Each Network should therefore become a key player in the promotion of European co-operation in its specific area of adult learning.</li> </ol>   |
|  | In accordance with the type of work to be carried out by the Networks, the co-ordinating institution and core partners are organisations active in policy formulation and/or research concerning formal, non-formal or informal adult learning.   |
|  | Co-ordination of a Grundtvig Network should be undertaken by an organisation with a solid infrastructure and strong links with the relevant national and regional representative bodies in its country in the subject area concerned. Appropriate European organisations, including associations, working in the field concerned may also be well equipped to take on this task. Similarly, the other non-co-ordinating partners should be suitable organisations for representing their respective countries actively and comprehensively in the Network's development and the implementation of its activities. In cases where a Network is addressing the learning needs of a particular 'target group' in society, representatives of this section of the population should be actively involved in planning and conducting the Network's activities. |
|  | <ul> <li>A typical network consists of:</li> <li>The co-ordinating institution, selected by the partners to be responsible for the overall organisation, management and co-ordination of the activities throughout the duration of the project period</li> <li>Other core institutions, many of which are likely to have been present from the start of the Network and which are particularly actively involved in carrying out the Network's tasks</li> <li>A number of other organisations acting as permanent channels for relaying information</li> <li>Occasional correspondents that take part in the Network's activities.</li> </ul>   |
|  | Within the priorities announced in the LLP General Call for Proposals 2011-2013 – Strategic Priorities 2012, the activities carried out by Networks, and for which a grant may be used, typically include the following:  • Activities to facilitate and enhance European co-operation, such as exchanging information, training of project co-ordinators, promoting new projects, disseminating project results and good practice  • Activities to promote educational innovation and best practice in the thematic area   |
|  | concerned, such as comparative analyses, case studies, formulating recommendations and  |

|                              | organising working groups, seminars or conferences  • Activities relating to project co-ordination and management.  |
|------------------------------|---|
|                              | • Activities relating to project co-ordination and management.  |
|                              | As a minimum, each Network will be expected to:   |
|                              | Establish and maintain a good quality website to support information exchange and   |
|                              | dissemination;  |
|                              | <ul> <li>Produce an annual report on the state of innovation in its area of activity;</li> <li>Inform the 'players' in Grundtvig fully about the 'Network's events and activities;</li> </ul> |
|                              | Organise at least one annual meeting of Grundtvig projects in the thematic area of the  |
|                              | Network. This meeting can also be in the form of an open seminar or conference;   |
|                              | Have a sound strategy for sustaining the Network after the co-financing by Grundtvig has  |

### **EVALUATION AND SELECTION PROCEDURES** Please consult Part I of this Guide, chapter WHAT IS THE LIFECYCLE OF A PROJECT for further information about the evaluation and selection procedures **Eligibility Criteria** General eligibility rules: The general eligibility criteria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3. Participating countries: please refer to Part I of this Guide, section "Which countries participate in the Programme?" Applications must be submitted by bodies which are legal entities. Specific eligibility Minimum number of 10 LLP participating countries **Countries:** Minimum number of **Partners:** Comment on At least one country must be an EU Member State. Any partners established in a third country are in addition to the minimum number of LLP participating countries specified above participants: **Award criteria** 1. Relevance The grant application and the results foreseen are clearly positioned in the specific, operational and broader objectives of the Programme. The objectives are clear, realistic and address a relevant issue / target group. Where the priorities are given in the LLP General Call for Proposals 2011-2013 - Strategic Priorities 2012 for the action concerned, at least one of them must be satisfactorily addressed. 2. Quality of the Work Programme The organisation of the work is clear and appropriate to achieving the objectives; the work programme defines and distributes tasks / activities among the partners in such a way that the results will be achieved on time and to budget. The work programme includes specific measures for evaluation of processes and deliverables. 3. Innovative Character The project will provide innovative solutions to clearly identified needs for clearly identified target groups. It will achieve this either by adapting and transferring innovative approaches which already exist in other countries or sectors, or by developing a brand new solution not yet available in any of the countries participating in the Lifelong Learning Programme. 4. Quality of the Consortium The consortium includes all the skills, recognised expertise and competences required to carry out all aspects of the work programme, and there is an appropriate distribution of tasks across the partners. 5. European Added Value The benefits of and need for European cooperation (as opposed to national, regional or local approaches) are clearly demonstrated 6. The Cost-Benefit Ratio The grant application demonstrates value for money in terms of the activities planned relative to the budget foreseen. 7. Impact The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the activities are likely to be significant. 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results) The planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project. 9. Where applicable: Participation of organisations from third countries Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money **CONTRACTING PROCEDURES** Probable sending date of pre-information on the results of the selection process June Probable sending date of agreement to the beneficiaries from July Probable starting date of the action October

| Objectives and description of the action | The aim is to support various activities which, though not eligible under the main Actions of the Grundtvig Programme, will clearly contribute to achieving its objectives. Accompanying Measures will be aiming at:  • raising awareness of relevant target groups or the general public on the importance of European cooperation in the field of adult education / adult learning more generally;  • helping to improve the implementation of the Grundtvig programme, in particular through training activities and analysis;  • maximising the impact of European cooperation in the field of adult learning, by disseminating and giving a high profile to the results and methods of such cooperation;  • fostering trans-sectoral synergies between the Actions of the Lifelong Learning Programme, for example around activities bringing together projects supported under Grundtvig, Comenius, Erasmus, Leonardo da Vinci, etc. on precise themes;  • implementing activities specifically concerning aspects of policies in which the Grundtvig programme is called on to play a part, including in particular, the implementation of follow-up activities pursuant to the Action Plan on Adult Learning, as well as transversal policies, notably promotion of equality between women and men, the integration of disabled persons and other people with special educational needs, and the promotion of intercultural education and the fight against racism;  • carrying out other activities focussing on specific themes, target groups or contexts, as justified by the needs of the current educational situation in adult learning in the participating countries.  Activities which can be supported include for example:  • organisation of conferences and seminars concerning European cooperation in adult learning;  • awareness-raising activities, such as targeted promotional and information campaigns;  • competitions etc.;  • setting up and consolidating European bodies such as associations, in particular as a means for the dissemination and exchange of information and experiences |
|  | The following activities, in particular, may not be covered by the funding awarded:  • activities eligible under another part of Grundtvig or the LLP programme;  • research activities.  |

|  | and Decision-makers  |
| Objectives and description of the action | The objective of this action is to support policy development and cooperation at European level in lifelong learning, notably in the context of the new strategic framework for cooperation in the field of education and training (E&T 2020), as well as the Bologna and Copenhagen processes and their successors.   |
|  | The focus of this action is to promote a peer learning culture, i.e. observation, exchange and mutual learning on experiences of common interest at the EU level. It encourages discussion of relevant themes and develops quality approaches and transparency of education and training systems. Special attention will be paid to peer learning study visits for high level policy and decision makers. Up to 10 % of the total budget available may be set aside for this type of study visits.   |
|  | A study visit is a short-term visit of three to five days for a small group (8-15 people) of specialists and decision makers representing various groups of education and vocational training stakeholders with the purpose of examining a particular aspect of lifelong learning in another participating country.  |
|  | The visits are organised locally or regionally under the coordination at the national level by the National agency and at the European level by Cedefop on behalf of the Commission.   |
|  | For each call a framework of themes is defined following the priorities agreed by the Lifelong Learning Programme Committee; however, the national authorities can choose topics according to their national priorities. Study visits will examine the themes from:  • a general education perspective,  • a vocational education and training perspective,  • a comprehensive lifelong learning perspective.  |
|  | Furthermore, during the study visits participants have an opportunity to establish professional contacts that might potentially be used for developing new projects and creating networks. For more information please visit the study visits programme website http://studyvisits.cedefop.europa.eu.  |
| Who can benefit                          | The programme of study visits addresses to decision and policy makers and persons, who, by their professional activities, are well placed to act as multipliers of learning and innovation, such as:   |
|  | <ul> <li>representatives of local, regional and national authorities;</li> <li>directors of education and vocational training institutions, centres or providers; guidance centres; validation or accreditation centres;</li> <li>heads of departments;</li> <li>teacher trainers;</li> </ul>  |

#### **Award criteria**

#### 1. Relevance

The grant application and the results foreseen are clearly positioned in the specific, operational and broader objectives of the Programme. The objectives are clear, realistic and address a relevant issue / target group. Where the priorities are given in the LLP General Call for Proposals 2011-2013 – Strategic Priorities 2012 for the action concerned, at least one of them must be satisfactorily addressed.

# 2. Quality of the Work Programme

The organisation of the work is clear and appropriate to achieving the objectives; the work programme defines and distributes tasks / activities among the partners in such a way that the results will be achieved on time and to budget. The work programme includes specific measures for evaluation of processes and deliverables

### 3. Innovative Character

The project will provide innovative solutions to clearly identified needs for clearly identified target groups. It will achieve this either by adapting and transferring innovative approaches which already exist in other countries or sectors, or by developing a brand new solution not yet available in any of the countries participating in the Lifelong Learning Programme.

## 4. Quality of the Consortium

The consortium includes all the skills, recognised expertise and competences required to carry out all aspects of the work programme, and there is an appropriate distribution of tasks across the partners.

# 5. European Added Value

The benefits of and need for European cooperation (as opposed to national, regional or local approaches) are clearly demonstrated.

### 6. The Cost-Benefit Ratio

The grant application demonstrates value for money in terms of the activities planned relative to the budget foreseen.

## 7. Impact

The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the activities are likely to be significant.

# 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results)

The planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project.

## 9. Where applicable: Participation of organisations from third countries

Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money

| Objectives and description of the action  | The objective of this action is to support the creation of transversal networks that promote mutual policy learning and exchange of information on good practices and critical factors for the development and implementation of coherent and comprehensive approaches towards lifelong learning.   |
|   | Such networks should bring together policy makers and other key actors across relevant sectors and levels of policy-making and implementation (national, regional, local) from at least 8 countries and provide a forum/ platform for joint reflection , co-operation and development of policy practice. The main objective is the pooling of expertise to support lifelong learning policy development, experimentation and implementation at national/regional/local level.  |
|   | Cooperation and transfer of good practice should focus on the development and implementation of coherent and comprehensive lifelong learning approaches that cover and interlink different sectors and forms of learning. Such approaches to lifelong learning should aim at promoting opportunities and learning pathways which are learner centred, flexible and without "dead-ends" using innovative and practical lifelong learning instruments to achieve the personal development, employability and the social inclusion of citizens of all age groups and backgrounds, in particular through:  Partnerships between the formal and non-formal education and training sectors, business, voluntary and community actors at the national, regional and local levels linked to employment and social inclusion initiatives.  Measures to improve key competences development throughout an individual's lifetime with a focus on increasing the equality of educational attainment by addressing the specific needs of undergone control and social accompanies lived in a specific property and sections. |
|   | underrepresented and socio-economically disadvantaged groups.  Enable more flexible pathways and better transitions, in particular through opening-up learning institutions to underrepresented groups, through implementing national qualifications frameworks and through schemes for the validation of prior and experiential learning including non-formal and informal learning; Other measures and instruments to make learning more attractive and increase participation in learning activities at the workplace and in private live, including through effective schemes for (financial) incentives and support to stimulate learning provision and participation.   |
| Who can benefit   | Beneficiaries can be national and regional ministries in charge of education and training, other public bodies and stakeholders' organisations directly involved in the development and implementation of lifelong learning policies.   |

| Countries: Minimum number of  | 5   |
| Partners: Comment on participants: Award criteria   | At least one country must be an EU Member State. Any partners established in a third country are in addition to the minimum number of LLP participating countries specified above.  1. Relevance  |
|   |   |

The grant application and the results foreseen are clearly positioned in the specific, operational and broader objectives of the Programme. The objectives are clear, realistic and address a relevant issue / target group. Where the priorities are given in the LLP General Call for Proposals 2011-2013 – Strategic Priorities 2012 for the action concerned, at least one of them must be satisfactorily addressed.

## 2. Quality of the Work Programme

The organisation of the work is clear and appropriate to achieving the objectives; the work programme defines and distributes tasks / activities among the partners in such a way that the results will be achieved on time and to budget. The work programme includes specific measures for evaluation of processes and deliverables

#### 3. Innovative Character

The project will provide innovative solutions to clearly identified needs for clearly identified target groups. It will achieve this either by adapting and transferring innovative approaches which already exist in other countries or sectors, or by developing a brand new solution not yet available in any of the countries participating in the Lifelong Learning Programme.

## 4. Quality of the Consortium

The consortium includes all the skills, recognised expertise and competences required to carry out all aspects of the work programme, and there is an appropriate distribution of tasks across the partners.

### 5. European Added Value

The benefits of and need for European cooperation (as opposed to national, regional or local approaches) are clearly demonstrated.

#### 6. The Cost-Benefit Ratio

The grant application demonstrates value for money in terms of the activities planned relative to the budget foreseen.

## 7. Impact

The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the activities are likely to be significant.

# 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results)

The planned dissemination and exploitation activities will ensure optimal use of the results beyond the participants in the proposal, during and beyond the lifetime of the project.

## 9. Where applicable: Participation of organisations from third countries

Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money

| Action                                   | KA2 Multilateral Projects  |
| Objectives and description of the action | The Languages Key Activity provides support for Multilateral Projects that promote language awareness and access to language learning resources. Projects can also aim at developing or spreading language learning materials, including online courses and instruments for language testing. All natural languages may be targeted. Whenever appropriate, the use of the Common European Framework for Languages from the Council of Europe is strongly recommended.  |
|  | <ul> <li>Within the priorities announced in the General Call for Proposals, the following activities may be supported:</li> <li>Awareness raising activities, e.g.: information about languages, language learning opportunities and the advantages linked to language skills.</li> <li>Development and spreading of language learning materials, e.g.: educational materials for foreign language teaching; methods and tools designed to recognise/assess language skills; curricula and language learning methodologies.</li> </ul>   |
|  | Dictionaries and data bases are not considered in themselves to be extensive language learning tools, and therefore their production does not fall within the scope of this Key Activity   |
|  | Language expertise For projects concerned with the development of pedagogical materials for the learning of specific languages, the consortium must include organisations that represent the community of each of the target languages. These organisations have the role of ensuring that pedagogical content is accurate and culturally appropriate. Consequently organisations from the eligible countries where the target languages are recongised (i.e. used / spoken as national, regional/minority languages) must be present in the consortium.   |
|  | For each target language that has the status of a national, regional or minority language of a country that is not eligible to participate in the LLP (such as Chinese, Arabic, Hindi, Japanese etc), the consortium must include at least one organisation, established in one of the countries eligible to participate ni the LLP, that teaches the language(s) concerned. For projects concerned more with awareness-raising than the creation of pedagogical content, these requirements are strongly recommended where appropriate, but not compulsory.   |
|  | These issues will be judged at 2 levels in the selection procedure. At a formal level, a check will be made to ensure that each target language is specifically and appropriately represented within the consortium in the context of the eligibility of the application. In the context of the Award criteria, experts will be invited to assess the quality of the specific expertise presented in the consortium.   |

| The general eligibility cri                      | teria for applications in the LLP Programme are outlined in Part I of this Guide, Chapter 3.   |
|  | please refer to Part I of this Guide, section "Which countries participate in the Programme?"  |
| Specific eligibility rules:                      | Applications must be submitted by bodies which are legal entities.  Applications should preferably address at least two of the four fields covered by the Erasmus,                       |
| rules:   | Comenius, Leonardo da Vinci and Grundtvig programmes of the Lifelong Learning Programme.   |
| Minimum number of                                | 3 LLP participating countries  |
| Countries:                                       |  |
| Minimum number of                                | 3  |
| Partners:<br>Comment on                          | At least one country must be an EU Member State. Any partners established in a third country   |
| participants:                                    | are in addition to the minimum number of LLP participating countries specified above.  |
|  | A single European Organisation is also eligible.   |
| Award criteria                                   | 1. Relevance The grant application and the results foreseen are clearly positioned in the specific, operational  |
|  | and broader objectives of the Programme. The objectives are clear, realistic and address a   |
|  | relevant issue / target group. Where the priorities are given in the LLP General Call for  |
|  | Proposals 2011-2013 – Strategic Priorities 2012 for the action concerned, at least one of them   |
|  | must be satisfactorily addressed.  2. Quality of the Work Programme  |
|  | The organisation of the work is clear and appropriate to achieving the objectives; the work  |
|  | programme defines and distributes tasks / activities among the partners in such a way that the   |
|  | results will be achieved on time and to budget. The work programme includes specific measures  |
|  | for evaluation of processes and deliverables.  |
|  | 3. Innovative Character The project will provide innovative solutions to clearly identified needs for clearly identified target  |
|  | groups. It will achieve this either by adapting and transferring innovative approaches which   |
|  | already exist in other countries or sectors, or by developing a brand new solution not yet   |
|  | available in any of the countries participating in the Lifelong Learning Programme.  |
|  | 4. Quality of the Consortium  The consortium includes all the skills, recognised expertise and competences required to carry   |
|  | out all aspects of the work programme, and there is an appropriate distribution of tasks across  |
|  | the partners.  |
|  | 5. European Added Value  |
|  | The benefits of and need for European cooperation (as opposed to national, regional or local approaches) are clearly demonstrated.   |
|  | 6. The Cost-Benefit Ratio  |
|  | The grant application demonstrates value for money in terms of the activities planned relative to  |
|  | the budget foreseen.   |
|  | 7. Impact  |
|  | The foreseeable impact on the approaches, target groups and systems concerned is clearly defined and measures are in place to ensure that the impact can be achieved. The results of the |
|  | activities are likely to be significant.   |
|  | 8. Quality of the Valorisation Plan (Dissemination and Exploitation of Results)  |
|  | The planned dissemination and exploitation activities will ensure optimal use of the results   |
|  | beyond the participants in the proposal, during and beyond the lifetime of the project.  |
|  | 9. Where applicable: Participation of organisations from third countries   |

| Third country participation adds value to the grant application, the activities proposed for the third country partner(s) are appropriate and the budget required for this purpose represents good value for money |  |  |  |

| Objectives and description of the action | Jean Monnet Chairs are teaching posts with a specialisation in European integration studies. Jean Monnet Chairholders teach a minimum of 90 hours per academic year in the field of European integration studies. Only one professor may hold the Chair and must provide the minimum teaching hours required. Jean Monnet Chairholders have the rank of professor/senior lecturer and may not be a "visiting professor" at the establishment in question.  |
|  | Jean Monnet Chairs are linked to the higher education institution that concludes the grant agreement. If an original Chairholder leaves the higher education institution, it is obliged to replace him or her by another member of its teaching staff with the same level of specialisation in European integration studies. The replacement of the original Chairholder requires written notification to the Executive Agency, which verifies the academic profile of the nominated Chairholder.  Former Jean Monnet Chairs cannot reapply for a new Jean Monnet Chair at the same institution. They may, however, submit a request for an ad personam Jean Monnet Chair. |

| Action  | JEAN MONNET Chairs Ad Personam   |  |  |
| Objectives and description of the action  | Ad personam Jean Monnet Chairs are teaching and research posts with a specialisation in European integration studies. Ad personam Jean Monnet Chairs are reserved for (i) distinguished Jean Monnet Chairs who deliver evidence of a high-level international teaching and publication record (that was achieved, at least in part, outside their country of residence) and/or (ii) professors with a distinguished background as former high-level practitioners in the field of European integration. Ad personam Jean Monnet Chairholders must teach a minimum of 90 hours per academic year in the field of European integration studies and must be responsible for organising regular reflection activities on the European integration process (conferences, seminars, roundtables). They must have the rank of professor and may not be a "visiting professor" at the establishment in question. Only one professor may hold the ad personam Chair and must provide the minimum teaching hours required.  The title of ad personam Chair is linked directly to the person. If the holder leaves the higher   |  |  |
|   | education institution, it may not replace him or her by another member of its teaching staff. In the event of leaving the original higher education institution, a holder of an ad personam Jean Monnet Chair may continue to use the title on condition that (s)he undertakes to maintain the teaching and reflection activities that were specified in the original grant agreement. This must be certified by the academic institution to which the titleholder is moving.  Former ad personam Jean Monnet Chair may only reapply for a new ad personam Jean Monnet Chair.  |  |  |

| Action   | JEAN MONNET Associations of Professors and Researchers   |  |  |
| ACTION   | Specialising in European Integration   |  |  |
| Objectives and description of the action   | The Jean Monnet Programme provides support for associations that have as their explicit purpose to contribute to the study of the European integration process. Such associations should be interdisciplinary and open to all interested professors, teachers and researchers specialising in European integration in the relevant country or region. They should be representative of the academic community in European integration studies in that country or region. Support can be given only to associations that are officially registered and have independent legal status. |  |  |
|  | <ul> <li>Associations should contribute to:</li> <li>enhancing the visibility of scientific and physical resources relating to European integration studies available within the country or region;</li> <li>developing synergies between all available resources in European integration studies from the different academic disciplines;</li> <li>ensuring openness to civil society, i.e. the world outside the university, and to local and regional players.</li> </ul>   |  |  |
| Who can benefit  | The activities specifically targeted by Jean Monnet support include the organisation of annual meetings and the organisation of communication initiatives such as the creation of an internet site and the publication of a newsletter.
