

# eTwinning

Lidija Kralj, prof. matematike i informatike  
savjetnica, eTwinning ambasadorica  
OŠ Veliki Bukovec

## Zašto eTwinning?

- ★ Zadovoljstvo učenja novih vještina u poticajnom okruženju (entuzijazam i samopouzdanje)
- ★ Suradnja sa učiteljima/nastavnicima koji slično razmišljaju
- ★ Profesionalni razvoj

## Drugačiji i pozitivan

- ★ Promjena načina poučavanja
- ★ „zabavan” rad s učenicima
- ★ Različite mogućnosti za realizaciju projektnih ideja
- ★ Pozitivan status u školi i lokalnoj zajednici (roditelji)

## Primjena odmah i u dobrom društvu

- ★ umjesto klasičnog „dosadnog” poučavanja koristimo projekt
- ★ učenje kurikulumskih sadržaja, ali na zabavniji i motivirajući način + dodana europska vrijednost
- ★ primjena teoretskog znanja odmah i u dobrom društvu

## Internet nije samo Facebook

- ★ Učenici dobivaju priliku vidjeti internet „u akciji” za obrazovanje, a ne samo zabavu
- ★ Učenici koji sudjeluju u međunarodnim projektima vide šire mogućnosti za svoj uspjeh i daljnje obrazovanje

## Sigurnost i privatnost

- ★ Sigurno i primjereno okruženje (TwinSpace) koje omogućava međusobnu suradnju učitelja, nastavnika i učenika
  - komunikacija, dijeljenje dokumenata, razmjena iskustava
- ★ isključivo preko korisničkih računa
- ★ učitelji omogućavaju pristup učenicima i nadziru njihov rad

## Privatno - javno

- ★ eTwinning – sve je najprije privatno
- ★ Društvene mreže – sve je najprije javno
- ★ eTwinning – zasebno određivanje pristupa
- ★ Društvene mreže – zasebno zaključavanje pristupa

## Podsjetnik - Zašto eTwinning?

- ★ Profesionalni razvoj
- ★ Prijateljstva
- ★ Suvremenost
- ★ Kreativnost, sloboda, različitost
- ★ Lijepa uspomena
- ★ Činite dobro i osjećate se dobro 😊

# Primjeri

- ★ Povezano
- ★ Dijelovi računala – slovensko-hrvatska suradnja

## eTwinning tourists in 5 star hotels.

Registered on 18.09.2011

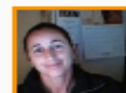

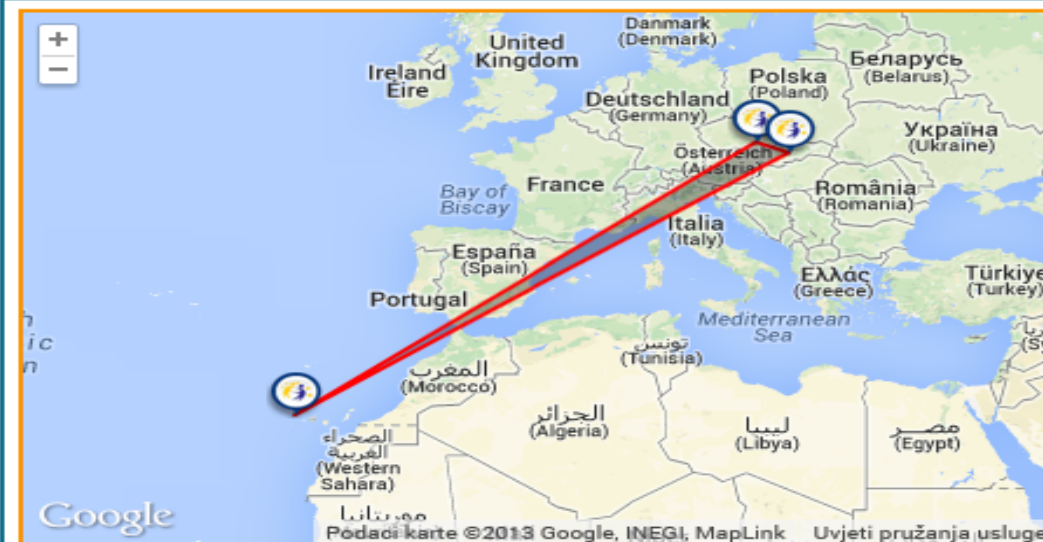

### Project details

During a whole school year the children work in 5 teams of mixed nationality. Each team is the staff of a hotel chain. The teachers are the inspectors of the HSA (Hotel Stars Agency), in charge of checking on the hotel chains with games, tasks and activities along the year, which are awarded with stars. At the end of the year, the hotel chain (team) that has first got 5 star hotels is the winner. Once each team has build their three hotels (one in each country), together they make a brochure for their hotel chain. Then each child makes a puppet, which will be their tourist. "The tourists" will look at the brochures and make a room reservation. Then the tourists (puppets) are send in a parcel to visit both other countries. Each hotel chain makes a holiday picture show from the tourists' visit and gives them a souvenir to take home after their travels. The project will end with a virtual party (on Skype) where the winners will be announced. The games and activities are based on topics of the English curriculum and the topics taught in CLIL lessons (Science and Art lessons in English).

- **Subjects:** Art, Biology, Informatics / ICT, Primary School Subjects
- **Languages:** EN
- **Pupil's age:** 10 - 12
