PROGRAME EU

UVOD

1. Osnivanje tima za mobilnost i projekte EU
2. Stavljanje e-Twinning aktivnosti u kurikulum škole (planiranje sredstava, raspored aktivnosti kroz mjesece)
3. Određivanje teme u pronalaženju partnera (školski vrt, poduzetništvo, uzgoj kamilice, zadruga)

Prednost: eTwinning konferencija u Portugalu – dogovorena je buduća suradnja sa sudionicima konferencije

Po povratku je započeo projekt, koji je okupio četiri partnera koji su prošle godine dobili nagradu u svojim zemljama. (Rumunjska, Engleska, Italija, Hrvatska)

Nadia's Pulli Farm

Nadia has got a farm. There are a lot of beautiful farm animals and birds.

Sara's Farm

Sara's Farm is Sara's Farm. It is not an ordinary farm. They have created a series of "mouse mess" out of corn fields. They are then harvested in the autumn, ready for a mouse mess to be planted in the spring. They are popular with visitors, especially for schools and kindergartens.

Poor Farming

Your class in Estonia are very similar to ours.

In Estonia, they use cows and bulls as transport.

How do you make corn? The kids in Estonia make corn (aged 7 and 8).

How is fun to make corn? How does it taste great?

Do you make other things with the grapes juice?

Joe, Ayman, Laila, Taha and Tahir (Year 4) and Mrs. Unford

Wine making videos

We had the Italian videos and the Estonian pictures.

How do you make the wine?

Do you drink the wine because we are not allowed to drink wine in schools.

Thank you for sharing your pictures and videos.

Yusuf, Hani, Madisson, Irena, Hadebe and Subhan (Year 3 and 4) and Mrs. Unford

Photos

We have seen your beautiful farm animal pictures from Estonia.

You have cute animals, they are very good. We also have white sheep and chickens and cows. This morning, there were lots of birds in the field next to our school.

7. Evaluacija projekta

Teacher reflections on the project

Evaluation – self-reflection grid

I. In relation to the project plan:

1 The project and my school:

- Did the school embrace it? **YES** Particularly the two video-conference calls – classes took part in the final video-call and our headteacher spoke to the other schools during the call.
- Did it fit with its programme of activities? **YES** This project was initially conceived at Steeeton School to fit in with our Farming cross-curricular project – we developed it with our partners so that it fitted with their plans too.
- Were colleagues involved? **YES** Colleagues taught a whole cross-curricular topic, including a school trip, about Farming and the countryside. Teaching assistants who run the Gardening Club were also involved, sharing photos of the club's work.

2 My motivations:

- Have they been fulfilled? **YES** After running many smaller projects, this was my first project as 'Project Founder' with a large number of partners (12 schools in 9 countries), including an 'eTwinning Plus' partner from Ukraine
- Have I found new ones? **YES** – especially new IT skills
- Would I do it again? **YES** I hope to work with partners in this project again!

3 The aims:

- Were they clear and coherent? **YES** We discussed the aims before the project started with some of the partners. We also held several teachers' video-calls at the week-ends during the project to make sure that we all understood the project and to take suggestions as to how to develop the project during its course.
- Did they correspond to my partners? **YES** We intended the project to be flexible so that partners

Veća je zainteresiranost učenika

Učenici koriste naučene alate

Učenici koriste strani jezik za svakodnevnu komunikaciju

Učenici su spremni na dodatni rad unatoč tomu što zahtjeva više vremena

Vrednovanje sudjelovanja u projektima sastavna je odrednica ukupne ocjene stranog jezika (e-dnevnik)

Učitelji surađuju i u neformalnom okruženju te na taj način poboljšavaju timski rad

Učitelji poboljšavaju svoje kompetencije korištenja tehnologije u nastavi
