Do you speak Google?

Welcome to the Croatia-Slovakia-Italy project: "Do you speak Google?"

Prizes awarded for this project

Project description

Main goal of this project is to learn how to use Google and features that Google provides such as docs, maps, forms...

To make this learning more fun we decided to add an international touch. In cooperation with Slovak and Italian school students have opportunity to communicate in English and learn about each other countries.

As a part of this project a videoconference was held on 3rd May. You can see clips by following [this link](#). Goodbye messages are also recorded and published on this site. For seeing them click a country flag below.
