Information

Coursera (www.coursera.org) is an education platform offering massive open online courses (MOOCs), aiming to bring the world's best education freely available to everyone, by establishing strong partnerships with the best universities in the world such as Stanford, Princeton and many others. As educators, we plan to use the platform to show students that learning is a process that takes place on an on-going basis. In this framework, they will get involved in one or more coursera courses and become familiar with distance learning, while discussing and reviewing their peer work. Students will use this experience in a creative way and possibly get a certificate from a prestigious University to add in their CV.

Subjects:	Foreign Languages
Languages:	EN
Pupil's age:	16 - 17
Tools to be used:	Twinspace
Aims:	Aim: To introduce distance learning and flexible studies to students and develop their critical and foreign language (English) skills. Objectives: To help students become lifelong learners To get an extra certificate for their CV To develop their skills in foreign language To learn how to review peer work and develop critical thinking skills. To discuss and analyse the knowledge they gained with their partners To demonstrate what they have learned by creating one or more comic/animated books, based on their experience hide
Work process:	Process: The "Coursera Kids" project is divided in modules. The first coursera course, starting September 21st, "Crafting the effective writer"... read more
Expected results:	Both teams share their coursera experience in a comic/animation form. Both partners write a story demonstrating the new knowledge

Hellooo, me and my friends are trying to match your qrcodes with your drawings! I think that the qrcode.17217471 with the facebook account match with the the first draw which shows a boy with blonde hair, I am not sure but hope I found you! I am sending you my **facebook** account https://www.facebook.com/_____

coursera week 2

Week 2 for me was easy. The parts of speech we learned about exist in Croatian as well, so it wasn't hard. The sentences were really fun and the weekly test was easy too.

In Greek we also learn these parts of speech when learning the language and especially when we learn how to write a composition but it needs a lot of time 😊

During week 4 we revised what we knew about clauses and phrases. They were a bit difficult, but I understood everything with the help of my teacher! 😊

The paragraph addresses the assignment. The topic sentence isn't very clear. The topic and the purpose are not clearly included in the paragraph. The paragraph is organized with appropriate transitions, but not well enough. However, all the sentences are related to the subject. Your paragraph includes specific details. Your paragraph was good in general, but your grammar needs improvement. 😊

Hello! We are blue team and we supposed to do a story, for the comic book. We were thinking about how our story should begin.

9 months ago by Irene, Sonia, Katerina

The fundation would be 8 parts of speech

9 months ago by matej

So i would use house in this comic book

9 months ago by matej

I would use something frm this paragraph:"learning the foundations of grammar is like building a house"

9 months ago by matej

Hi everyone! I'm Sonia and i can't wait to cooperate with you for the comic book.
