We'd like to thank all the eTwinning partners for the cooperation. It was a pleasure and fun to share our work with you. The project lasted for one year and during this time we learned a lot about tradition, holiday celebration and the environment of other countries. We particularly liked the theme in December - how is Christmas celebrated in other countries. We also had an opportunity to practise English, develope our artistic skills and improve the ability of using ICT.  
We'd like to say good good bye and let's hope one day we will meet on TwinSpace again.

I have been very busy these days with school and family, but I tried hard not to miss your lessons which, I must say, were very interesting and useful, especially the links you offered us. I'm discovering tools I never knew about. Today I introduced my students to "Popplet", but I also talked to them about creating comic strips. They just can't wait and neither can I : ) !!! Thank you very very much for this great experience!

The bad things about reading are ...

### GOOD THINGS

I like reading because I can imagine the story in my head. My favorite type of book is criminal.

BAD THINGS Sometimes I don't want to read because the book has too many pages. Books aren't always interesting.

My favorite books are: Trojica u Trnju and Tonček i Točkica.

Hana Vojvodić

Knjige su zabavne jer su tajnovite, slikovite i poučljive. lose su zamo zato sto su preduge da su krace vise bi ih citao.

ISAK JUKIĆ

Knjige su zanimljive, poučne, napete, tajnovite, za sve uzraste. Moje najdraže knjige su GROZNI GRGA i GREGOV DNEVNIK.

Books are also interesting, tense, mysterious, instructive, for all kind of people-old and young.

My favorite books are HORRID HENRY and DIARY OF A WIMPY KID.

NOA

I like reading the books very much. I read lots of books. Not only reading for school but also lots of other books. I don't read because I must, but for fun. My favorite books are: Harry Potter, Percy Jackson and The Book Thief.

Hana Ljubaj

Mnogo djece kaže "Čitanje je dosadno." Upravo sam mislio o tome i rekao pa zašto je to tako. I dalje ne znam zašto to govore. Zato treba puno čitati. Knjige su mi zanimljive, cool i jednostavno odlične. Zato su mi knjige zabavne i poučljive. U knjigama za mene nepostoji mana sve su zanimljive, ali ipak moram priznati da su neke zapravo i dosadne.

IVAN BABIĆ

**READING gives us SOMEPLACE to go when we have to STAY where we are**

NOA

Knjige ne znam od kuda da počnem. Ono

Neke knjige su dosadne, nenapete, naporne, nezanimljive, glupe

Croatian- Some of the books are boring, stupid, interesting and not
